## **AUDITORS' REPORT TO THE BOARD OF GOVERNORS OF THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY**

We have audited the statement of financial position of The Algonquin College of Applied Arts and Technology as at March 31, 2001 and the statements of operations, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

As set out in notes 2(b) and 2(c), the College has not accrued vacation entitlements and post-employment benefits obligations in the accounts. To this extent, the statements are not in accordance with Canadian generally accepted accounting principles. The effect of this departure from Canadian generally accepted accounting principles is set out in notes 2(b) and 2(c).

In our opinion, except for the failure to record accrued vacation entitlements and post-employment benefits obligations as set out above and in notes 2(b) and 2(c), these financial statements present fairly, in all material respects, the financial position of the College as at March 31, 2001 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the College taken as a whole. The supplementary information included in Schedules "A" to "H" is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## 1. Description:

The Algonquin College of Applied Arts and Technology was incorporated as a College in 1966 under the laws of the Province of Ontario. The College is dedicated to providing post-secondary education.

The College is a registered charity and therefore is, under Section 149 of the Income Tax Act, exempt from payment of income tax.

The financial statements reflect the assets, liabilities, net assets, revenue, expenses and other transactions of all of the operations and organizations controlled by the College. Accordingly, these financial statements include the academic, administrative and other operating expenditures funded by fees, grants and other general revenue; restricted purpose endowment funds, and the ancillary operations of the College.

The College has an economic interest in the Algonquin College Foundation. The Foundation was incorporated without share capital on December 4, 1995 under the Ontario Corporations Act. The results and operations of the Foundation are not included in these financial statements. The objectives of the Foundation are to solicit, receive, manage and distribute money and other property to support education at the College. The Foundation had no activity in fiscal 2000/2001.

## 2. Significant accounting policies:

### (a) General:

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the exception of vacation entitlements and post-employment benefits obligations described below.

### (b) Vacation entitlements:

Vacation entitlements are recorded as salary expense upon payment rather than in accordance with the accrual basis as recommended by the Canadian Institute of Chartered Accountants. Most vacation is earned by the employees of the College by March 31, the year end of the College, and is taken in the June to August time frame. As a result, the unrecorded liability for vacation pay at March 31 is close to the maximum.

If vacation entitlements had been recorded in accordance with accrual accounting standards, liabilities would have increased and unrestricted net assets would have decreased by \$6,485,176 (2000 - \$6,354,768; 1999 - \$6,059,000) in the statement of financial position. Expenditures for the year would have been increased by \$130,408 (2000 - \$295,322 decrease; 1999 - \$145,000 decrease) in the statement of operations.

## 2. Significant accounting policies (continued):

### (c) Post-employment benefits obligations:

Post-employment benefits obligations have not been recorded in accordance with Canadian generally accepted accounting principles. The College currently subsidizes premiums for the group benefits available for early retirees. The premiums are paid by the early retiree, however their claims experience is included with the active employees. This practice increases the premium rates for active employees, for which the College pays 100%. In a similar fashion, a subsidy is provided for the continuation of benefits for employees on long-term disability leave. If the post-employment benefits obligations had been recorded, liabilities would have increased and the unrestricted net assets would have decreased by \$4,120,000. The excess of revenue over expenditures would also have decreased by \$139,000.

### (d) Accumulated sick leave:

Cost of employee absences are recorded as salary expenditures in the year in which they occur. The College is liable to pay 50% of an academic employee's accumulated sick leave credit up to a maximum of six months salary. Sick leave credit relating to administrative and support staff, which does not accumulate, is drawn down in accordance with the payout provisions noted above. The Ministry of Training, Colleges and Universities provides a grant to fund such expenditures as they are required which amounted to \$836,637 in 2001 (2000 - \$800,765; 1999 - \$571,129). Because these amounts are fully funded by the Ministry, the total estimated amount of vested sick leave benefits payable to employees of \$5,896,733 (2000 - \$6,139,270; 1999 - \$6,061,547) and the corresponding receivable amount from the Ministry are not recorded in these financial statements.

### (e) Inventory:

Inventory is valued at the lower of cost and net realizable value. Cost is determined on a first-in, first-out basis.

### (f) Investments:

Investments are recorded at cost except for investments donated to the College which are recorded at fair market value at the date of acquisition. Gains or losses on the sale of investments are recognized in the year of disposal. Should the market value of investments become lower than cost and this decline in value is considered to be other than temporary, the investments are written-down to market value.

### (g) Capital assets:

Capital assets in excess of \$1,000 are recorded at cost with the following exceptions:

- (i) Academic furniture and library holdings are charged to expenditure in the year of acquisition.
- (ii) Computer software is charged to expenditure in the year of acquisition.

# THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2001

## 2. Significant accounting policies (continued):

### (g) Capital assets (continued):

- (iii) Land originally acquired at the Woodroffe and Rideau campuses is recorded at a nominal value of \$1 with subsequent additions at cost.

Donated capital assets are recorded at the value of the receipt issued to the donor, which reflects estimated fair market value of the equipment at the time of the donation.

Amortization is provided on a straight-line basis over the estimated useful lives as follows:

Asset	Useful life
Buildings	25 years
Site improvements	10 years
Parking lots	10 years
Equipment	5 years
Laptop/desktop computers	22/48 months
Automotive equipment	5 years
ITS infrastructure	5 years
Residence furniture and appliances	5 years
Leasehold improvements	Over term of lease

### (h) Deferred capital contributions:

Contributions received for capital assets are deferred and amortized over the same term and on the same basis as the related capital asset.

### (i) Revenue:

- (i) Grants and donations are recorded using the deferral method of accounting for contributions. Unrestricted contributions are recognized as revenue when received or receivable. Contributions externally restricted for purposes other than endowment are deferred and recognized as revenue in the period in which the related expenses are recognized. Endowment contributions are recognized as direct increases in net assets in the period in which they are received.
- (ii) Tuition fees are recorded in the accounts based on the academic period of the specific courses. Tuition fees are deferred to the extent that the courses extend beyond the fiscal year of the College.
- (iii) Contract education and other revenues are recorded in the accounts based on the services provided or goods sold in the College's fiscal year.
- (iv) Restricted investment income is recognized as revenue in the year that the related expenses are incurred. Unrestricted investment income is recognized as revenue when earned.

## 2. Significant accounting policies (continued):

(j) Student organizations:

These financial statements do not reflect the assets, liabilities and results of operations of the various student organizations at the College.

(k) Contributed services:

Volunteers, as well as members of the staff and faculty of the College, contribute an indeterminable number of hours per year to assist the College in carrying out its service delivery activities. Because of the difficulty of determining their fair value, contributed services are not recognized in these financial statements.

(l) Use of estimates:

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

## 3. Inventory:

	<u>\$ 1,465,312</u>	<u>\$ 1,153,475</u>	<u>\$ 1,107,095</u>

## 4. Loan receivable:

The loan receivable is with the Algonquin Student Association Inc. and bears interest at 6.13% calculated daily. Principal and interest payments equal to the amount generated from a student building fee will be made to the College each academic semester until the loan is paid off, which is anticipated to occur in 2002.

## 6. Capital assets (continued):

Cost and accumulated amortization at March 31, 2000 amounted to \$137,803,675 and \$76,383,238 respectively. Cost and accumulated amortization at March 31, 1999 amounted to \$123,920,330 and \$73,397,352 respectively.

Included in the cost of buildings is \$433,282 of interest that was capitalized during construction.

## 7. Deferred revenue:

(a) Details of the year-end balance are as follows:

	2001	2000	1999
Student tuition fees	\$ 6,326,250	\$ 6,456,020	\$ 5,082,489
Grants and reimbursements	4,026,120	844,337	233,819

	<u>\$ 12,254,555</u>	<u>\$ 8,601,965</u>	<u>\$ 6,111,140</u>

Student tuition fees are for academic courses which extend beyond the fiscal year of the College.

Grants and reimbursements are the unexpended restricted grants to be spent on specific items in future years.

Contract education services represent prepayments for courses to be held in subsequent years.

Miscellaneous projects include contributions, deposits and prepayments related to small, miscellaneous activities of the College.

Student aid represents the unexpended donations and interest to be spent on student scholarships and bursaries.

Ancillary operations represent amounts received by the ancillary operations of the College for services to be provided in subsequent years.

(b) Long-term deferred revenue represents funds received from the Ministry of Training, Colleges and Universities for capital projects under the Access to Opportunities Program and the Super Build Program. Management expects to use these funds to finance the construction of a new advanced technology centre.

## 9. Deferred capital contributions:

Deferred capital contributions represent the unamortized amount of donations and grants received for the purchase of capital assets. The amortization of the deferred capital contributions is recorded as revenue in the statement of operations. The changes in the deferred capital contributions balance are as follows:

	2001	2000	1999
Balance, beginning of year	\$ 33,003,631	\$ 31,524,485	\$ 33,803,847

	\$ 1,098,372	\$ 1,848,307	\$ 379,101	\$ 2,227,408

Internally restricted net assets are funds committed for specific purposes which reflect the application of College policy as follows:

(a) Employment Stabilization Funds represent funds committed by the College for retraining and counselling for employees upon separation from the College. The College's annual commitment is based on a formula prescribed by the collective agreements. Expenditures from this fund are approved by the respective employee union and College management.

## 11. Internally restricted net assets (continued):

- (b) Student Institutional Aid consists of funds available for student assistance. Each fiscal year, the College appropriates 30% of the additional fee revenue resulting from any tuition fee increase for student financial assistance.
- (c) Other Student Aid represents the unspent portion of unrestricted endowment fund income and other unrestricted contributions which have been designated for scholarships and bursaries by the College.
- (d) Appropriations represent current year budget allocations primarily relating to capital projects which were unable to be completed during the 2000/2001 fiscal year.

## 12. Endowments:

Contributions restricted for endowment consist of monies received primarily as benefactions and which either the donor or the Board of Governors has designated as endowment. The annual income earned from funds designated as endowment by the donor may be expended only for the purpose designated. If no purpose is designated by the donor then the income is expended at the direction of the Board.

## 13. Pension plans:

Full-time employees of the College are participants in The College of Applied Arts and Technology Pension Plan. The College's contributions to this plan are based on the participant contributions and are calculated according to matching formulae. Charges to expenditure for these plans amount to \$3,283,245 in 2001, \$3,300,745 in 2000 and \$3,243,000 in 1999.

## 14. Financial instruments:

### (a) Concentrations of credit risk:

The College is exposed to credit-related losses in the event of non-performance by counterparties to financial instruments. Credit exposure is minimized by dealing mostly with creditworthy counterparties such as government agencies and public companies. The College also enforces approved collection policies for student accounts. The largest credit exposure to a single institution at March 31, 2001 was \$903,352 (2000 - \$1,196,950; 1999 - \$1,368,520) with the Algonquin Students Association Inc. This amount will be received by the College through the collection of the student building fee levied by the Association.

### (b) Fair values:

The carrying values of cash, accounts receivable, accounts payable and accrued liabilities and accrued salaries and employee deductions payable approximate their fair value due to the relatively short periods to maturity of the instruments.

The carrying values of the term loans approximate their fair value because the interest rate approximates the market rate for these instruments.

It is not practicable to determine the fair value of the loan receivable because the repayment terms are based on future events.

### (c) The College has entered into interest rate derivative agreements to manage the volatility of interest rates. The College converted a net notional \$23 million of floating rate debt for fixed debt between 6.55% and 6.95%. The derivative agreements are in place until the maturity of the debt in 2025. In addition, the College has booked net notional \$17 million of interest rate derivative agreements related to the second phase of the residence.

## 15. Commitments:

(a) The College has committed to make the following future minimum payments under various equipment operating and premises rental leases:

2002	\$ 685,938
2003	648,724
2004	604,521
2005	285,152
	\$ 2,224,335

(b) Construction commitments:

The College has entered into an agreement for the construction of the second phase of the residence due to be completed in fiscal year 2001/2002. The total construction cost of the second phase of the residence is expected to be approximately \$17,650,000, of which \$5,483,000 has been incurred in the year.

## 16. Contingencies:

The College is involved with pending litigation and claims which arose in the normal course of operations. In the opinion of the administration, any liability that may arise from such contingencies would not have a significant adverse effect on the financial statements of the College. Losses, if any, arising from these matters will be accounted for in the year in which they are resolved.

## 17. Change in non-cash working capital:

	2001	2000	1999
Decrease (increase) in accounts receivable	\$ (294,172)	\$ 1,793,430	\$ (5,211,665)

## 18. Public Sector Salary Disclosure:

Under the Public Sector Salary Disclosure Act, 1996, the College is required to disclose the name, position, salary and taxable benefits of each employee with an annual salary of \$100,000 or more.

For the calendar year ending December 31, 2000, the individuals who met the requirements for disclosure were:

Employee	Position	Salary	Taxable benefits
R. Gillett	President	\$ 166,098	\$ 10,827

A. Teh	Technical Support Specialist	100,606	147

## 19. Ontario Student Opportunity Trust Fund:

The externally restricted endowments include monies provided by the Government of Ontario from the Ontario Student Opportunity Trust Fund matching program to award student aid as a result of raising an equal amount of endowed donations.

The College has recorded the following amounts under the program:

	2001	2000	1999

Expendable funds available for awards in future years	\$ 55,091	\$ 25,553	\$ 26,905

## 20. Subsequent events:

At year end, the College held an option to purchase land for \$1,480,000 minus the \$92,000 cost of the option. The Board has authorized the exercise of the option prior to June 30th.

## 21. Comparative figures:

Certain of the 1999 and 2000 comparative figures have been reclassified to conform with the financial statement presentation adopted in 2001.
