Algonquin College and OCRI Host the Sixth-Annual Applied Research Day

Algonquin College will showcase its internationally recognized research projects from the School of Advanced Technology, School of Media and Design and School of Health and Community Studies. Algonquin, in conjunction with OCRI (Ottawa Centre for Research and Innovation), is hosting the sixth-annual Applied Research Day. Tours will be given of Algonquin's leading-edge Simulation Centre for Health Studies, the Telecommunications Lab, the HaptoVisual Research Centre, the OptoPhotonics Lab and the Digital Cinema Centre.
