ALGONQUIN COLLEGE OPENS ADVANCED TECHNOLOGY CENTRE

Algonquin College President Robert Gillett will officially open the doors to the College's $23-million Advanced Technology Centre (ATC). The ATC will house Algonquin's School of Advanced Technology (SAT), utilizing state-of-the-art technology to offer programs such as photonics, and network technology. The ATC is also the location for a joint Bachelor of Information Technology - Network Technology degree with Carleton University.

Who: Algonquin College President Robert Gillett, Algonquin College Board of Governors Chair Mike Keller, Ottawa Mayor Bob Chiarelli, Algonquin College Vice President Academic Raymonde Hanson, Algonquin College School of Advanced Technology Dean Morris Uremovich, along with other Algonquin College senior administrators and local dignitaries, will officially open Algonquin College's 120,000-sq. ft. $23-million Advanced Technology Centre.

What: Algonquin College's Advanced Technology Centre (ATC).

* The RCMP's Remote Mobile Investigator robot will be cutting a fibre-optic cable to commemorate the opening of the ATC.

When: Thursday, Oct. 24, 11 a.m.

Where: Algonquin College, Woodroffe Campus,
Advanced Technology Centre ('T'Building) lobby, main floor.
Parking available in visitor lot.
