**Algonquin's Career and College Preparation Program
Student Achievement Awards Celebration**

Algonquin College's Career and College Preparation (CCP) Program is holding their Student Achievement Awards to recognize students for their progress, motivation, participation and attendance in their individual subject areas. CCP students are mature students who are returning to complete upgrading courses that will enable them to meet admission requirements to other post-secondary programs in the College. Many CCP students have come to Canada with completed college diplomas and university degrees but they need to strengthen their English skills in order to pass the Standard English Admissions test.

Four CCP graduates who have gone on to post-secondary programs at Algonquin will be the event's guest speakers. Raymonde Hanson, Vice-President Academic, Russell Mills, Dean of the Faculty of Arts, Media and Design, will also be in attendance for the award ceremony.

Who: Raymonde Hanson, Vice-President Academic
Russell Mills, Dean of the Faculty of Arts, Media and Design
