NSERC – Idea to Innovation Grant (I2I) https://www.nserc-crsng.gc.ca/Professors-Professeurs/RPP-PP/I2I-INNOV_eng.asp	The I2I grants provide funding to college and university faculty members to support research and development projects with recognized technology transfer potential.	22-June-20 and 28-Sept-20	Yes	4 distinct funding options are proposed determined by each phase of the technology. In the market assessment, NSERC will share costs of an independent and professional market study with the institutions (including the industry liaison office [ILO] or its equivalent). In phase I,	Researchers submitting grant applications must be endorsed by ARI	Yes

				<p>the direct costs of research will be entirely supported by NSERC; in phase II, they will be shared with a private partner. The technology development may begin with a phase I project (reduction-to-practice stage), followed by a phase II project (technology enhancement) or, if the development is at a later stage, it can start directly with a phase II project. In any case, the combination of phase I and phase II will be limited to a maximum of three years of funding for any given project.</p>
