[Lana-Lee Hardacre, Conestoga](#)

[Barbara Graham, St. Clair](#)

[Lad Shaba, Northern](#)

This practical distance-education program (ISTTP) is offered to academic staff teaching in Ontario's community colleges and provides a convenient, inexpensive means to access the top salary step for faculty whose current educational credentials prevent them from ever progressing beyond Step 19.

A major challenge for professors is designing programs to meet the needs of diverse groups. Wherever you teach — in a classroom, a lab, a shop, an office, or a hospital — the one constant is the process of teaching. Therefore, the ISTTP focuses on developing the skills needed to ensure your success in the process of teaching.

We believe that the **In-Service Teacher Training Certificate Program – The Process of Teaching** is interesting, practical and worth your time. Based on adult education principles, it offers an opportunity for professional renewal that will have a long-term impact on teaching and learning in the community college system of Ontario.

In-Service Program

St. Clair College
2000 Talbot Road West
Windsor, ON N9A 6S4

inservice@stclaircollege.ca

Financial Benefits of Enrolling in the ISTTP:

- 15 years' service - an immediate step increase upon registration⁺
- 10 years' post-probationary service - you do only Modules I & VI
After successfully completing the program you can progress one step at a time to the maximum step.
- You gain access to the top salary step and substantial long-term benefits in salary and pension.

⁺ You are required to take only Modules I & VI, and the step increase currently translates to about \$2,600 a year! *

* Based on the current accepted offer

Highlights of the ISTTP Learning Environment:

- Easy-to-use distance-learning formats: on-line or by mail
- Completion of course work when and where you want
- Access to a personal tutor/advisor
