

10.6 #4.	Internship title	
	AIDS/HIV Prevention Outreach Intern	
Project description		
a) Please provide a short description of the project(s) with which the intern will be associated; b) If this project is already directly or indirectly funded by CIDA, please provide the CIDA project number (S63...) and officer name		
The Algonquin-Cape Peninsula University of Technology (CPUT) partnership is designed to build the capacity of CPUT to respond to the training needs of young South African students and is part of an overall cooperation agreement between the two institutions. Algonquin's School of Media and Design provided technical assistance in the following areas: development of curriculum and implementation of teacher training workshops, quality assurance and student and program evaluation and monitoring; establishing and reinforcing interactive curriculum delivery modalities; and enhancing the capacity of CPUT faculty and staff to address education and training needs.		
Host Country (State/Province, City)	Primary and Secondary Sectors	Funds being requested from CIDA
Cape Town, South Africa	Improving Health Outcomes - primary Strengthening Basic Education – secondary	\$15,000 CDN
Overseas Host Organization	Overseas Partner (if applicable)	Canadian Partner (if applicable)
Cape Peninsula University of Technology		
Overseas Job description (Activities)		Qualifications

<p>The HIV/AIDS Community Outreach Officer will assist CPUT in developing basic health and HIV/AIDS awareness information for use at workshops, seminars and various other outreach initiatives at the university and throughout South Africa. Specific roles that the interns will assist in will be: development of HIV/AIDS prevention to strengthen the capacity of local staff/students in AIDS awareness strategies through outreach seminars and workshops; dissemination of health education materials; facilitating training seminars on basic health issues; training, outreach and peer support; health promotion; material development; identifying potential “local champions” to carry on the work after the intern leaves; adding to and maintaining information on AIDS/HIV. The intern will participate in community outreach and education programs using the animated tool with a program priority of AIDS/HIV prevention and health awareness. The intern will facilitate outreach programs such as media campaigns, interactive seminars for males and females (separately), harm reduction, strategies, information on AIDS and health promotion</p>	<p>Qualifications are:</p> <ul style="list-style-type: none"> - excellent computer skills & knowledge of on-line learning - college or university degree in human services or health care sector - experience in community development and community health initiatives 		
<p>Duplicate internship (if applicable) Please provide justification in the following cases: Duplicate Job Description with the same Overseas Host Organization; Identical Job Description as in any previously approved year(s) with the same Overseas Host Organization; Multiple interns with the same Overseas Host Organization.</p>			
<p>Given the large community that CPUT serves the request for three interns addresses the differing needs the organization has in an effort to respond to community needs for education and training. The proposed internship is directly linked to CPUTs strategic plans and priorities to increase educational access and community support for training and skills development in Cape Town.</p>			
<p>Expected Development Outputs</p>	<p>Indicators</p>	<p>Expected Employment Outputs</p>	<p>Indicators</p>

1. Strengthened awareness of HIV/AIDS prevention.	1a. Levels of m/f community awareness about safe sex and family planning among youth and children and low literacy communities. 1b. Levels of utility of new program and health services among m/f.	1. Improved ability to review, update and develop communication and promotional materials.	1a. Intern able to apply relevant communication skills for future use in employment in Canada; 2a. # of new effective methods and applied knowledge acquired in an international context.
2. Enhanced capacity in needs assessment and analysis for education and prevention of HIV/AIDS.	2a.
