

The following script prevents printing and some copying of exams within Blackboard. However, please note: *This script is not fool-proof!*

If a student takes the exam using a:

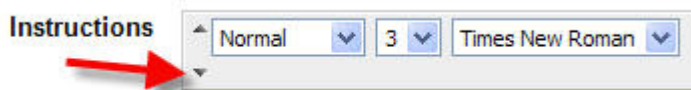

- PC and Internet Explorer → no printing and no copying
- PC and Firefox → no printing, but it can be copied from the browser menu
- Mac and Safari → no printing, but it can be copied from the browser menu
- Mac and Firefox → no printing, but it can be copied from the browser menu

Follow these steps exactly to prevent printing and some copying:

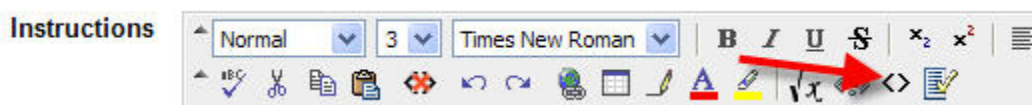

1. Click **Control Panel**.
2. Click **Test Manager** in the Assessment box.
3. Click **Modify** to the right of the exam you want to add the script.
4. Click **Modify** to the right of Instructions.

5. In the **Instructions** box, click the down arrow to show more editing options.

6. Click the HTML tag.

7. Add the following script in the Instructions box.

```
<STYLE type=text/css>@media print {BODY {display:none}}</STYLE>
<SCRIPT language=Javascript src="http://bb-
bloomu.sytec.pashe.edu/javascript/noprintcopy.js"></SCRIPT>
```

Instructions

You are in HTML Source mode. Use the [<>] button to switch back to normal mode.

Please complete the exam by Monday, October 6, 2008 at 3:00 p.m.

```
<STYLE type=text/css>@media print {BODY {display:none}}</STYLE>
<SCRIPT language=Javascript src="http://bb-
bloomu.sytec.pashe.edu/javascript/noprintcopy.js"></SCRIPT>
```

8. Click **Submit**.
9. Click **OK**.

The exam is now ready to be added to a content area. You should verify the no print/copy works before you make the exam available to your students.
