Identify one sustainable initiative currently being undertaken by Algonquin College.

Did you know that the use of a powerbar in your office means that you can turn off a number of devices (including your computer) at the end of each day? A computer left on for a 24 hour period consumes as much as 6000 watts of electricity. That's enough to power most refrigerators.

Each team member uses a mug or glass for his/her beverage on a specific day.

W _____

Date: _____

TIMED TASK

Friday, September 5th

Each member of the team enjoys a garbage-less lunch.

W _____

Date: _____

Name two of the green courses being offered at Algonquin in the 2008-2009 academic year.

1. _____

2. _____

Print your team's ENVIRO card on a reused sheet of paper.

Locate a room in the College where a non-energy saving light bulb is being used.

room # _____

TIMED TASK

Wednesday, September 10th

One team member must do something to reduce his/her eco-footprint. Record the date and the action.

Date: _____

Action: _____

Did you know that Algonquin has a Committee with cross-College representation known as *Sustainable Algonquin*?

Check out the website at www.algonquincollege.com/algonquinproductions/sustainable2/index.htm

Algonquin College is the first Canadian College to sign the *Tallore's Declaration*. The *Tallore's Declaration* is an action plan for incorporating sustainability into higher education. How many points are there in this declaration?

Calculate your team's average carbon footprint using the tool at <http://www.myfootprint.org/en/>.

Did you know that through improved infrastructure made possible by its partnership with *Direct Energy*, Algonquin anticipates saving 1200 tonnes of greenhouse gas emissions?

<http://www.algonquincollege.com/greenpower/PEC>

Your entire team gets to the College on a given work day using only one car. Consider alternative, eco-friendly transportation such as public transit, bike, carpooling, walking etc.

W _____

Date: _____

TIMED TASK

Friday, September 12th (released at 12:00pm on myAlgonquin)

View the video *The Story of Stuff* at www.thestoryofstuff.com. Identify two of the elements of a new approach that emphasises sustainability and equity.

1. _____

2. _____

Each member of the team enjoys a lunch comprised of food whose ingredients come from within 100 kms of Ottawa
