FAQs

Q: Can my tutor do my work?

A: **NO** – just because you are paying a tutor does not mean they are doing the work for you

Q: Can I use **samples and files** provided to me by my tutor and use those files to complete course work and then submit it for grades?

A: **NO** – your tutor may provide you with samples or files to help you practice and better understand the content being taught, but you should only ever use your own material or course materials for work that you submit for grading.

***Remember: tutors are there to help you understand the content, not to give you the answers or provide you with completed work*
