Hiding the Course Menu in Blackboard

In Blackboard 9, you can temporarily hide your Course Menu so that it’s easier to read content on a small screen.

- **NOTE**: Toggling Course Menu availability affects the display for all of your courses and only your courses. Hiding or Showing the Course Menu will not affect whether it’s viewable to the students in your course.

- **Hiding the Course Menu**:
  
  Click on the button that is to the right of the Course Menu as indicated below to hide the course menu.

  ![Click to Hide](image)

  ![Click to Unhide](image)

- **Showing the Course Menu**:
  
  Click on the button that is on the left edge your browser as indicated above to show the course menu.
