

WINTER 2016 SEMESTER PLAN

Step 1: Take your test/assignment weekly schedule from each class and vertically put due dates with % amounts under applicable class.

Step 2: Horizontally look across at each week to see everything that you have due.

Step 3: Look at this with your 'ideal weekly schedule' with HW (homework) hours built in and then plot in when you will work on what item - when you do this, you will get more done in less time, have items done ahead of time, and ultimately YOU WILL EARN HIGHER GRADES!!! "We don't plan to fail...we fail to plan" so if you do this it can really help you to be successful!
