Shivang Dhawan

Hello folks,

I would like to begin by introducing myself, I am an international student from India. I am enrolled in the Computer Systems Technician Program which has allowed me to venture new ideas and a way of learning in a new country. I arrived in Canada in 2018 and to be honest, in a short span of time Algonquin College has been very supportive towards me in everything, which reflects enthusiasm; nothing comes to you until and unless you try. I am a student who shows strength and courage in every endeavor I face, I show my will to work within the community and for the community by volunteering and organizing various events. Some of the successful events being the Diwali event, Beat the heat and Movie nights with the Indian Students Society. In addition to being a full-time student and an active volunteer, I am also the leader and founder of the Indian Students Society, which is one of the most active clubs in the community. We organize multiple events which showcase unity and promote the idea of local and international students working together.

I have achieved many things here at Algonquin College, a home, a family, a society and most importantly hope to bring change in the community and to build a community that works together to achieve the goals for the greater good. As mentioned before, I too would like to showcase the students' courage, willingness and talents to be recognized

Regards,

Shivang Dhawan
