

## PROJECT RISK MANAGEMENT

This is the fourth course in the Project Management Essentials Certificate Program.

**3 DAYS**

Early in the initiation and planning of a project, as well as throughout its implementation, risks must be identified, assessed, and mitigated to the extent possible and their adverse impact on project outcomes reduced. Participants also examine how to identify and analyze risk, develop risk response plans and a risk register. Participants learn a range of risk management strategies and activities based on best practices, tools, and techniques. A mix of case studies, exercises, and group discussions contribute to a comprehensive learning experience

This course can be taken on its own or as part of our complete Project Management Essentials program of seven courses.

### TOPICS COVERED

- Identify, categorize and assess project risks
- Assess risk probability, impact and timing
- Plan proactive and reactive risk responses
- Assess signs, symptoms and triggers of risks to develop a monitoring plan
- Create and manage a risk register
- Agile best practices in risk management

### WHO SHOULD ATTEND

- New project managers
- Prospective project manager, project coordinators or project team members
- Those looking to pursue a career in project management

*This course is eligible for 21 Project Management Institute Professional Development Units.*

# ABOUT THE PROJECT MANAGEMENT ESSENTIALS CERTIFICATE PROGRAM

The Project Management Essentials program offers practical, hands-on training in the fundamental knowledge and skills needed in today's project management field. Crafted by top industry experts and educators, this comprehensive program blends industry insights with best practices, delivering a well-rounded training experience for both experienced Project Managers and individuals aspiring to build a career in project management.

You can take any five of the seven courses in any order, either as standalone courses or to fill specific knowledge gaps. To earn the certificate, you must complete all seven courses within three years, with the first course being *Introduction to Managing Projects* and the final course being *Project Implementation and Closure*. Successful completion of the program will earn you a Project Management Essentials certificate from Algonquin College.

Courses in the Project Management Essentials Program:

- Introduction to Managing Projects (3 days)
  - Resource, Communications and Stakeholder Management (3 days)
  - Project Schedule and Cost (3 days)
  - Project Risk Management (3 days)
  - Project Quality Management (2 days)
  - Procurement and Contract Management (3 days)
  - Project Implementation and Closure (3 days)
-
