

PROJECT IMPLEMENTATION AND CLOSURE

This is the seventh and final course in the Project Management Essentials Certificate Program.

3 DAYS

During project implementation, the project manager leads the project team to successfully complete the work defined in the project management plan to accomplish the project objectives. Upon completion of project implementation, the project manager also leads the team through the process of finalizing all activities and managing the successful transition from implementation to operations. Working as part of a team, participants implement a simulated project in which they apply the knowledge and experience gained in the previous courses in the program. The principles of project integration management are applied to bring a project to successful completion. A mix of case studies, exercises, and group discussions contribute to a comprehensive learning experience.

TOPICS COVERED

- Project governance
- Integrated project management over a project life cycle, including essential tools and techniques
- Monitoring and project control through effective project tracking, change management, scope verification, reporting performance and balancing constraints of time, scope, cost, risk, human resources, quality and risk
- Managing challenges in requirements management, schedule management, contract management, project team management, project communications, and risk and issue management
- Best practices in implementing Agile projects
- Close out a project or project phase, close out procurements and conduct reviews

WHO SHOULD ATTEND

- Those wishing to complete their Project Management Essentials certificate program.

PREREQUISITES

This course is eligible for 21 Project Management Institute Professional Development Units.

ABOUT THE PROJECT MANAGEMENT ESSENTIALS CERTIFICATE PROGRAM

The Project Management Essentials program offers practical, hands-on training in the fundamental knowledge and skills needed in today's project management field. Crafted by top industry experts and educators, this comprehensive program blends industry insights with best practices, delivering a well-rounded training experience for both experienced Project Managers and individuals aspiring to build a career in project management.

You can take any five of the seven courses in any order, either as standalone courses or to fill specific knowledge gaps. To earn the certificate, you must complete all seven courses within three years, with the first course being *Introduction to Managing Projects* and the final course being *Project Implementation and Closure*. Successful completion of the program will earn you a Project Management Essentials certificate from Algonquin College.
