

2nd Annual  
**CYBERSECURITY DAYS 2.0**  
February 24-25, 2016

## Privacy Risks and the Impact on You

Join **Algonquin College** and its partners from education, high technology, government and other sectors to share ideas on up-to-the-minute topics in privacy, cyber security, youth and cyber, dark actor tactics, and the future of cyber security and privacy careers.

In support of **International Data Privacy Month**, events include an exciting program of talks, discussions and student activities held in the 700-seat Algonquin Commons Theatre.

### DAY 1

Focuses on 'Industry Trends' including VIP keynote and Canadian thought leader speakers, panels, and technical demonstrations.

### DAY 2

Looks at 'Youth and Cyber' including themes of social networking, cyber recruiting, and starting cyber businesses.

Returning is the popular high-tech cyber security Trade Fair with global leading companies and our first showcase of Foundation Sponsors.

Also back is the Job Fair, with many of the cyber security companies undertaking recruiting efforts right on campus.

More tech talk, a hacking village and cyber security technical demonstrations!

This is an engaging opportunity for the entire community to come together for two days of dialogue, seeing and doing. All are welcome including practitioners, educators, students, government officials, researchers, interested parents, job seekers and others.

For more information please contact:

**Event Chair Craig Delmage, CISSP 613-727-4723 X6491**
