

# ALGONQUIN COLLEGE

**GIVE YOUR CONSTRUCTION PROFESSIONALS THE TOOLS THEY NEED TO EXCEL IN THE BUILDING INDUSTRY - BOTH AT HOME AND ABROAD**

Partner with Algonquin College and equip your members or employees with the planning, project management, and sustainable building skills required to thrive in today's evolving construction industry

**Our Faculty and Staff can Design a Customized Curriculum that Meets Your Organization's Specific Goals**

## **Four Different Learning Paths to Explore**

### **Part-Time Online Programs**

Construction and building certification programs that can be taken part time and offer the same accreditation as our on-campus courses and programs. Each program is typically 260-700 hours long.

### **Individual Courses**

Students can take courses according to their needs. To qualify for certification, all courses in a program must be completed within the stated timeframe. Courses are 30-90 hours long and may be offered online or face to face.

### **Professional Development Workshops**

Applied skills workshops and courses that are 2-20 days long and typically delivered at our state-of-the-art Centre for Construction Excellence in Ottawa. Can be tailored for delivery in your home country as well.

### **Post-Graduate Certification Programs**

Specialized one-year certificate programs for learners seeking to expand knowledge through advanced study and applied skills. Usually delivered at our Ottawa campus but alternative delivery options can be explored.

## **A Wide Range of Courses, Programs and Applied Skills Workshops to Choose From:**

- Construction Supervision and Management
- Construction Project Management Essentials
- Commercial Estimating
- Construction Safety
- Construction Job Site Controls
- Construction Project Cost Control and Accounting

- OR -

Our experienced educators can come to your home country to deliver the curriculum in a local setting  
Online learning opportunities also available in some cases  
- OR -

Partner with us to place highly trained Algonquin Co-op students onsite and alongside your employees in your home country

# ALGONQUIN COLLEGE

## One of the World's Most Advanced Learning Facilities for the Building Industry

Opened in September 2011, the Algonquin Centre for Construction Excellence brings carpenters, plumbers, civil engineering technologists, interior designers, and many other trades and professions under a single roof in this one-of-a-kind living laboratory. This new facility features state-of-the-art classrooms and laboratories and offers a cross-discipline curriculum designed for professionals in all building trades and technical design programs.

With its LEED® Platinum-accredited sustainable design – including a green roof, atrium with a 22-metre high biofilter living wall, hybrid hydroponic heat pump system, radiant heating, and real-time monitoring of the building's operations, the building itself is a teaching tool. Your construction professionals will be inspired by the innovation on display and will love how the building has been designed with their educational experience in mind.

### An Accredited Leader in Construction & Project Management Education

- Algonquin offers courses that help students **achieve Canadian Construction Association (CCA) Gold Seal Certification** – a nationally recognized program for construction project managers, superintendents, and estimators.
- We also offer courses accredited by the **Canadian Institute of Quantity Surveyors**, which sets the highest standard for construction and infrastructure economics in Canada.
- We are a **Canada Green Building Council (CaGBC) Higher Education Provider**, and our curriculum and instructors are endorsed by the CaGBC. We help students prepare for the examinations that lead to the professional designation of **LEED Green Associate and LEED Accredited Profession (LEED AP)**.
- We are a **Registered Education Provider (REP) with the Project Management Institute** and is approved by the PMI to provide world-class project management and training.

### Why Choose Algonquin?

With over 175 programs, 20,000 full time students, and three vibrant campuses in the Ottawa region, Algonquin is one of Canada's largest colleges. We are a global leader in developing programs that use alternative and innovative training methods, and are internationally renowned for delivering world-class training with a focus on both theoretical learning and real-world applied skills development. We have extensive experience in delivering high-quality training internationally, including in China, India, Montenegro, Tanzania, Thailand, Kuwait, and Saudi Arabia.

### Explore how we can work together

We would love to discuss how we can work with you to deliver the world-class training your construction professionals need to thrive in the modern global building industry.
