

# ALGONQUIN COLLEGE

## EMPOWER YOUR HEALTHCARE PROFESSIONALS TO DELIVER THE HIGHEST QUALITY CARE AND ACHIEVE THE BEST POSSIBLE PATIENT OUTCOMES

Partner with Algonquin College to train your healthcare providers in the proven best practices, technologies, and systems that will improve quality of care and increase staff productivity.

### An Innovative Leader In Health Education

At Algonquin College, we teach healthcare professionals the skills and knowledge required in 21st-century healthcare settings. Our workshops and programs provide training through innovative labs, on-site clinics, case studies, and learning simulations that allow healthcare workers to gain the theoretical understanding and hands-on experience they need to achieve positive patient outcomes.

#### OUR TEAM OF HEALTHCARE EDUCATORS CAN:

- **Work one-on-one with your healthcare workers** in their local healthcare environment or in Ottawa, Canada
- **Customize workshops and programs** to fill education gaps and strengthen knowledge and skills in critical areas
- **Expand understanding of specific patient conditions and treatments**, such as palliative care, infusion therapy, operating room best practices, identifying and treating cardiac arrest, and dealing with dementia and other mental health issues
- **Teach workflow processes** that will help boost productivity and improve patient outcomes while decreasing the time and cost of treatment
- **Provide our expertise in curriculum design** to support your institution in building training and skills development programming that meets your current and future priorities

### Healthcare Providers: Upgrade Your Skills And Expertise

Our workshops and training programs will review, enhance and update your skills, tools, and systems and allow you to build capacity in specialized treatment areas, foster a culture of continuing professional development, and increase productivity while offering the highest quality care to your patients.

- **Provide your nursing staff with training** and skills development in areas such as critical care, mental health, perinatal, perioperative, and operating room specializations
- **Create a workplace culture that focuses on safety** and ensures proper protocols are followed to reduce clinical errors and improve patient safety
- **Quickly adapt to new technologies** introduced into your healthcare setting and use them to offer more personalized patient care to increase productivity
- **Conduct more complete and efficient health assessments** and make more effective clinical judgments and decisions around client care through simulated learning activities
- **Reduce healthcare-associated infections** and other patient safety threats in your work environment
- **Develop better communication and collaboration skills** among doctors, nurses, and other healthcare professionals to offer better patient care

Offer workshops and programs in your home country OR send learners to Ottawa to gain hands-on experience in simulated labs or Canadian hospitals

ALGONQUIN COLLEGE is internationally recognized for:

- **World-class curriculum design** and program quality
- **Innovative use of technology** online and in the classroom
- A focus on applied studies and **hands-on skills development**
- **Global leadership** in successful international program delivery

## Healthcare Educators: Design And Deliver Innovative Content That Promotes More Effective Learning

Our healthcare educators will teach your trainers how to develop outcome-based curriculum and interactive content that engages healthcare workers and motivates them to put their learning into practice.

- Learn how to create and maintain positive learning environments
- Discover the latest online learning theories and how to use technology to support learning and deliver engaging content online and in the classroom
- Explore the principles of adult learning and how to sustain motivation and engagement
- Learn the best practices for designing and implementing high-quality simulations that promote real-world skills development
- Discover practical strategies for designing and facilitating successful learning activities – online, face to face, and in structured out-of-class work
- Select, design, and use tools for evaluating learning and giving helpful feedback

### Why Choose Algonquin?

With over 175 programs, 20,000 full time students, and three vibrant campuses in the Ottawa region, Algonquin is one of Canada's largest colleges. We are a global leader in developing programs that use alternative and innovative training methods, and are internationally renowned for delivering world-class training with a focus on both theoretical learning and real-world applied skills development. We have extensive experience in delivering high-quality training internationally, including in China, India, Montenegro, Tanzania, Thailand, Kuwait, and Saudi Arabia.

### Explore How We Can Work Together

We invite you to contact us to discuss how we can work with you to deliver the world-class training your healthcare institutions and professionals need to deliver the highest quality care to their patients.
