

2018 LEADERSHIP AND ENTREPRENEURSHIP PROGRAM

4-Week Summer Business Program

The Algonquin College Summer Leadership and Entrepreneurship Program is a 4-week academic experience offered by the School of Business. The program offers an exciting opportunity for international post secondary students to infuse serious learning with world exploration and fun at Algonquin College in Ottawa, Canada's capital.

Entrepreneurship and leadership are essential skill sets required in both new and existing companies globally. This intense hands-on program is created and taught by leading industry experts. Students acquire tools, strategies and develop business savvy to drive success within a new or existing company. The program will take place over a four week period and offer students an environment for obtaining skills in the field of business leadership and entrepreneurship.

Explore Ottawa and Algonquin College

If you're looking for world-class education in a vibrant, you'll find it here at Algonquin College. With over 190 programs and three campuses, we are one of Canada's largest colleges – yet we're still small enough to nurture a friendly, student-oriented community atmosphere.

Ottawa is a safe, welcoming, multicultural city, that offers all of the advantages of a big city and yet feels like a small town. It is a family-friendly city that offers beautiful parks, historic landmarks, world-class arts and culture, and an exceptional quality of life. Tour Parliament Hill, sail on the Ottawa river, go horse-back riding only minutes from downtown, see festivals almost every summer weekend.

The Courses

MGT1114 - Entrepreneurship

Entrepreneurship is a powerful force driving innovation, productivity, job creation and economic growth in Canada, as well as across the globe. Students evaluate the risks, opportunities and rewards of a start-up and explore how to manage a new product development from conception to commercialization. With the help of industry experts, ideation workshops, mentorship, online collaborative tools and design thinking methodology, students examine the framework and methods for designing, developing and implementing an innovative product, service or idea.

MGT1115 - Leading and Managing

Success of a venture depends heavily on human capital and an entrepreneur's ability to effectively lead and influence its people. Students diagnose organizational problems, develop solutions reflecting the complexity of an organization, and lead effective implementation of strategies. Students focus on how to influence others without relying on formal power and authority, negotiate and make effective decisions in uncertain and complex environments, as well as how to build and utilize your personal capital. Students learn to put the principles of leadership into practice
