

3 Steps for Getting started with H5P

Berry names are presented in Spanish. You can turn the cards to see the correct English translations.

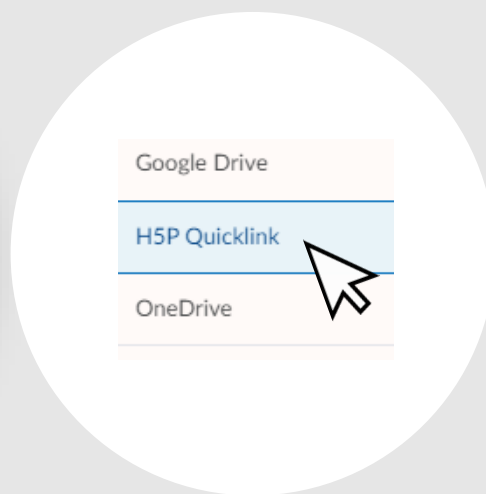

1 Create Your First H5p Activity in Brightspace.

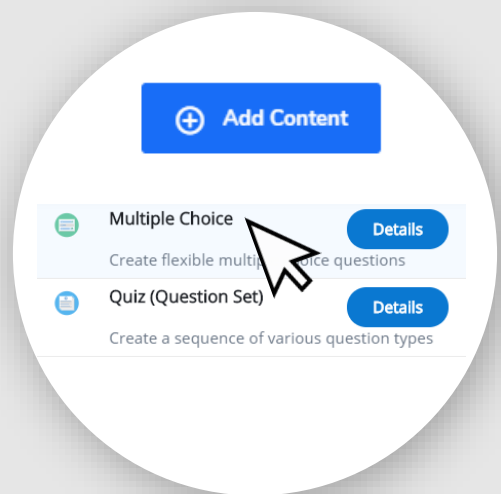

In a content area of your course:

Click on **Existing Activities**

Click on **H5p Quicklink**

Create an activity.

2

Set Your H5p Account Password.

Go to <https://algonquin.h5p.com/>

3 Build Activities in H5p Account and Insert into Brightspace.

You can choose to use H5p in Brightspace. Though, you may find working directly in your H5p account easier.

The screenshot shows the H5p 'Create New Content' page. At the top, there's a 'Create New Content' button. Below it, a section titled 'Create or Upload Content' has two radio buttons: 'Create Content' (selected) and 'Upload'. A search bar labeled 'Search for Content Types' is present. Underneath, it says 'All Content Types (28 results)' and offers sorting options: 'Recently Used First' (selected), 'Newest First', and 'A to Z'. Three content type cards are visible: 'Multiple Choice' (Create flexible multiple choice questions), 'Quiz (Question Set)' (Create a sequence of various question types), and 'Interactive Book' (Create small courses, books and tests).

The screenshot shows a single H5p activity card. It has a blue checkmark icon, a hand cursor icon, and the title 'How to Make a Cup of Tea' with a subtitle 'Interactive Video'. A green 'Insert' button is located to the right of the card.

Click on **Create Content**. Select activity type and build.

Insert completed activity into your course.

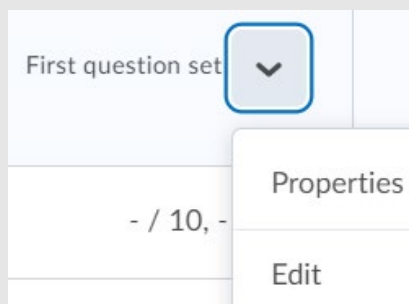

Tutorials for creating each type of activity can be found at h5p.org

Important!! Take Note

- 1** To see activity column in the grade book, complete the activity. Your score will be sent to Brightspace and prompt the creation of the activity column.

This only applies if the LTI option is set to *First Attempt*, *Last Attempt*, or *Best Attempt*.

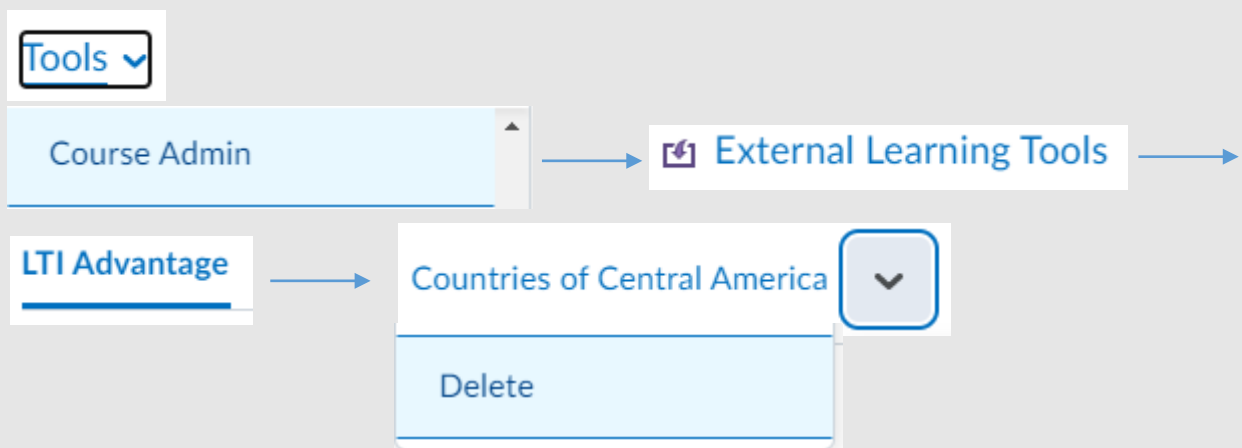

- 2** To change the default **Maximum Grade of 10** set by Brightspace, edit the activity column in the grade book.

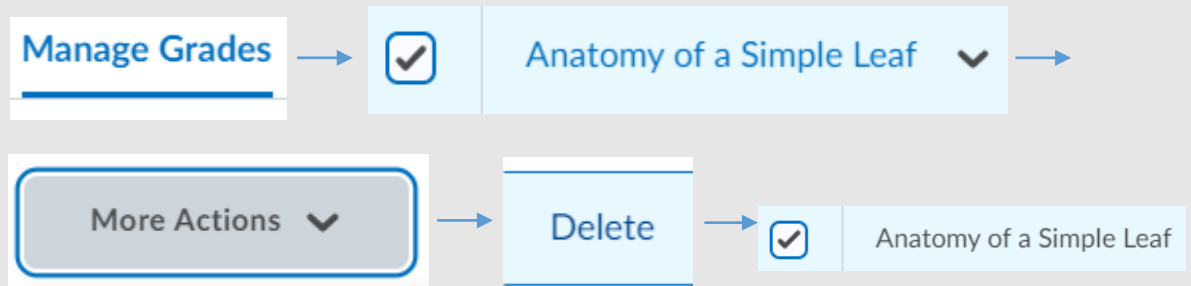

- 3** a) **To delete H5p activity and grade column:**
In content area, delete the activity.

IF STILL NOT ABLE TO DELETE GRADE CENTRE COLUMN, TRY THIS OPTION:

b) In grade book, **select** grades and delete the activity column.

4

When you do a course copy (e.g. move content into course for the new semester) and it includes H5p activities, make sure that these copy settings are selected:

Tools > Course Admin > Import/Export/Copy Components

Search for your course and select it:

Select **Copy All Components** OR,

when you **Select Components**, make sure to check these settings:

- Include associated files
- Grade Settings – Copy all items
