

Test Question Generator

Instructions

Go to into the course and select TOOLS –TEST QUESTION GENERATOR.

Copy and paste the test questions into the question generator.

*There are specific instructions within the Test Question Generator tab that opens. There are also additional links if you run into issues.

Generate and download your test questions for Brightspace.

Formatting Tips:

- Asterisk (*) signifies a correct answer.
- All questions except for fill in the blanks must begin with a number.
- There must be a carriage return between each question.
- Using the Question Type dropdown you can create example questions to preview formatting.

Test/Quiz Question Generator

This Algonquin College developed Quiz Question Generator provides an easy way of creating a collection of questions that can be imported into Brightspace quizzes and pools, saving you time in the process!

Instructions

1. All questions must follow a proper format for the generator to recognize them.
2. Select the Question Type Samples dropdown and click Create to see a sample question. Refer to the Question Types document for how to properly format your questions. Or download the instructions [here](#)
3. Copy and paste all your questions from a word document or type them out in the box below.
4. Click **Generate Test Questions**.
 - In case the Test Generator fails, review the questions in red. It could mean the format is not correct or something is missing.
5. Once the generation has passed, click the **Download Questions for Brightspace** button at the bottom of the page.
6. Save the .csv file to your computer.
7. In the Add/Edit Questions screen in Brightspace, use the Import option and upload the .csv file. Follow the prompts.
8. Refer to [Uploading Questions to a Quiz](#) and [Uploading Questions to a Pool](#) on how to import them into your Brightspace quiz or pool.

For full instructions with screenshots, click [here](#).
