Zero Tolerance

Requirement to respond to all reported incidents of workplace violence and concerns about risk behaviour by means of investigation and resolution

OHSA

Occupational Health and Safety Act (Ontario)

College Community

Refers to all employees, volunteers, contractors, clients, visitors and guests of the College for the purpose of this policy

Worker

Person who performs work for the College or supplies services to the College for monetary compensation (OHSA)

Employee

Individual in an employment relationship with the College

Workplace

Any College building or location where an employee works or where work-related activities are conducted. It includes, but is not limited to, the physical work premises, work-related social functions, work assignments off College premises, work-related travel and work-related conferences or training sessions

Supervisor

Person who has charge of a workplace or authority over workers (OHSA)

Complainant

Person who files a formal complaint in writing under this Policy

Respondent

Individual against whom allegations that could constitute a violation of this Policy have been made

POLICY

1. The College is committed to provide a working environment free of violence and to implement measures to prevent acts of workplace violence.

2. The College subscribes to a zero tolerance approach to any occurrences of workplace violence. Actions taken by the College in dealing with workplace violence relate to both response and prevention measures.

3. No employee or any other individual affiliated with the College shall subject a worker to workplace violence or allow or create conditions that support workplace violence. Employees are expected to understand and comply with this Policy and all related procedures.

4. Members of the College community are to report to their supervisors incidents of workplace violence, and concerns about risk behaviour they may experience or witness. Members of the College community are also to report circumstances where a threat of domestic violence may exist that would likely expose a worker to physical injury in the workplace. Finally, members of the College community must cooperate with any efforts to investigate and resolve matters arising under this Policy.

5. The College will maintain a multi-disciplinary Behaviour Risk Assessment Group (Appendix 2) to review reported behaviour which poses a concern for the safety of members of the College.
community. The Group has the mandate to undertake the necessary risk assessment to determine the most suitable approach to intervene and manage the situation within the context of College policies and practices.

6. An employee of the College that subjects a worker to workplace violence or otherwise violates this Policy may be subject to disciplinary action, up to and including immediate dismissal for cause. Employees who have engaged in workplace violence may also be subject to sanctions by applicable regulatory bodies and professional associations, and may also be subject to criminal or civil proceedings.

7. An employee of the College who makes a false accusation under this Policy, knowingly or in a malicious or bad faith manner, may be subject to disciplinary action up to and including immediate dismissal for just cause.

8. The College will not tolerate reprisals or retaliatory measures against a member of the College community who, in good faith, raises a complaint of workplace violence within the meaning of this Policy. These protections apply to anyone who cooperates in the investigation of a complaint. Disciplinary action may be taken against any employee who commits a reprisal or retaliatory measure against a person who reports workplace violence or who cooperates in an investigation.

9. Confidentiality is required to properly investigate an incident and to offer appropriate support to all parties involved: only those who “need to know” will be advised of the complaint and/or investigation. The College will endeavour to maintain confidentiality to the extent possible within the limits of the law; employees are advised that engaging in spreading rumours, speculation or conjecture about an incident will not be tolerated. Those with questions or concerns should speak to their immediate supervisor or the Manager, Safety and Security Services.

10. The College will provide workers with information, including personal information, about a person with a history of violent behaviour if the worker can be expected to encounter that person in the course of his or her work and the risk of workplace violence is likely to expose the worker to physical injury. The College will not disclose more information than is reasonably necessary for the protection of an employee from physical injury.

11. While the College is committed to taking actions to maintain an environment free of workplace violence, it recognizes that no workplace is immune from the risk of workplace violence.

12. The required actions and form of investigation will in all cases depend on the circumstances, taking into consideration the nature of the workplace violence and the concerns of employee(s) who experienced or witnessed the workplace violence. In some cases, not all steps will be required and in other cases, additional steps may be taken.

   2.3 Undertake an internal investigation to determine the most suitable approach to intervene and manage the situation within the context of College policies and practices.

   2.4 Undertake an assessment of the potential risks involved.

   2.5 Consult additional internal and external resources as necessary, within the context of confidentiality practices and privacy legislation, to address the risks and provide direction to resolve the situation in the interests of the safety of the College community. Depending on the circumstances, resources may include:
   - support staff and faculty unions,
   - student services,
   - Ombudsman,
   - Centre for Students with Disabilities,
   - Ottawa Police Services,
   - mental health professionals,
   - physicians,
   - family members etc.
2.6 Document all findings and measures taken.
WORKPLACE VIOLENCE PREVENTION STRATEGIES

The Workplace Violence Prevention Program describes workplace violence hazards and offers processes to assess and control these risks. It promotes proactive strategies to prevent violence.

Examples of these strategies include:

a. Workplace Design Measures
   A range of measures available for consideration through consultation with either Safety & Security Services or Facilities Planning and Development as they relate to the design of new and renovated spaces in the College.

b. Physical & Electronic Security Measures
   A variety of measures are available for consideration through consultation with Safety & Security Services.

c. Administrative Systems & Procedures
   Describe committee structures and procedural environments concerned with personal security issues, as well as services such as Walk Safe.

d. Training Programs
   Describe a range of training programs such as Non-violent Crisis Intervention, Rape Aggression Defence Techniques, Dealing with Classroom Emergencies and Managing Aggressive Behaviour, available to employees as general and targeted professional development.

e. Personal Safety Awareness Techniques
   Describe a host of techniques that can be used by individuals and supported by management staff.

f. Warning Signs
   Describe specific warning signs of potential violence as well as behavioural criteria for identifying potential risks.

g. Behaviour Risk Assessment Group (Appendix 1)
   Algonquin College maintains a multi-disciplinary Behaviour Risk Assessment Group to review reported behaviour which poses a concern for the safety of members of the College community in the context of the risk behaviour identification criteria listed in section 6 of the Workplace Violence Prevention Program.
HS 03: Appendix 4

RISK BEHAVIOUR ASSESSMENT AND RESPONSE

Out of concern for fellow staff or students, it is important that members of the College Community report circumstances where an individual has displayed behaviours which may be an indicator that they are in need of assistance. If any of the observed behaviours cause a concern that they or other members of the College Community may be at risk, it is critical this information be reported. It is equally critical that members of the College Community do not attempt to deal with situations themselves or otherwise put themselves at risk.

There are a wide variety of support mechanisms to assist persons who may be having social, emotional, or mental health difficulties. Such persons may be in need of help from College and community health professionals. The College wants to be able to provide this help when necessary. Helping persons through the appropriate support processes is essential in maintaining a healthy and safe College community.

The following list identifies various life events and behaviours that may affect an individual’s social, mental or emotional well being

Please note that persons who demonstrate these behaviours or are influenced by the events listed below DO NOT necessarily pose a risk to themselves or others. Ensuring that these persons have adequate access to necessary social supports and assistance is the thrust of any preliminary intervention and can have a proactive influence over the potential for negative outcomes if not addressed. This is the context in which the following list is presented.

The following list is intended to generally characterize some traits and behaviours for reporting purposes.

1. History of Violence
   a. Fascination with weapons, acts of violence, or both
