

Area of Interest: Health Sciences

Practical Nursing

Ontario College Diploma

Program Code: 1704X01FWO

2 Years

Ottawa Campus

Our Program

Contribute to a healthcare team and support excellence in patient care.

The Practical Nursing Ontario College Diploma program prepares you for work in the healthcare system. You learn the necessary skills and techniques for the workforce. This includes assessment, planning, implementation and evaluation tools required to provide nursing care to those of all ages. Throughout the program, learning opportunities include theory, lab techniques, applied experiences and independent study.

As a student, you have the opportunity to gain hands-on skills in a variety of healthcare facilities. An added benefit of this program is the Simulation Lab on campus, where you experience realistic patient care scenarios. These help to build confidence in your skills and techniques before working with patients in clinical placements. Placements are in community settings such as retirement homes, long-term care homes and hospitals.

To practice as a Registered Practical Nurse in Ontario, you are required to be licensed by the College of Nurses of Ontario (CNO). This program gives you the necessary knowledge and skills to write the Regulatory Exam - Practical Nurse (REx-PN) in Ontario.

Registered Practical Nurses work in close collaboration with healthcare teams. You may find employment a variety of settings such as:

- community clinics
- private homes
- long-term care homes
- medical, surgical, and obstetrical units

You may also choose to pursue further studies after graduation.

For more information on the Nursing Profession, please review the Fact Sheet Requisite Skills and Abilities for Nursing Practice in Ontario, available on the CNO website at <https://www.cno.org/>.

SUCCESS FACTORS

This program is well-suited for students who:

- Enjoy working with and accepting people of all ages and stages of development and of varying backgrounds.
- Have good communication and interpersonal skills.
- Enjoy working with others as a member of a team or in a leadership role.
- Possess strong problem-solving and analytical skills.
- Are dedicated patient advocates.
- Can handle physically demanding situations.

- Are mature and flexible.
- Can work any scheduled shifts in a 24-hour period.
- Are proficient in math.

Employment

To practice as a Registered Practical Nurse in Ontario, you are required to be licensed by the College of Nurses of Ontario (CNO). This program gives you the necessary knowledge and skills to write the Regulatory Exam - Practical Nurse (REx-PN) in Ontario.

Registered Practical Nurses work in close collaboration with health-care teams. You may find employment in a variety of settings such as:

- community clinics
- private homes
- long-term care homes
- medical, surgical, and obstetrical units

For more information on the Nursing Profession, please review the Fact Sheet Requisite Skills and Abilities for Nursing Practice in Ontario, available on the CNO website at <https://www.cno.org/>.

Learning Outcomes

The graduate has reliably demonstrated the ability to:

- Communicate therapeutically with clients and members of the health-care team.
- Assess clients across the life span, in a systematic and holistic manner.
- Plan safe and competent nursing care, based upon a thorough analysis of available data and evidence-informed practice guidelines.
- Select and perform nursing interventions using clinical judgment, in collaboration with the client and, where appropriate, the health-care team, that promote health and well-being, prevent disease and injury, maintain and/or restore health, promote rehabilitation, and/or provide palliation.
- Evaluate the outcomes resulting from all interventions in the nurse-client interaction and modify the plan of care as required.
- Act equitably and justly with clients and members of the health-care team.
- Adapt to a variety of healthcare settings, using different leadership skills and styles as appropriate to each setting.
- Contribute to creating a healthy and safe work environment in a variety of health-care settings.
- Practise in a self-regulated, professional and ethical manner, complying with relevant legislation and with the standards of both the regulatory body and the practice setting to provide safe and competent client-care.
- Identify and apply discipline-specific practices that contribute to the local and global community through social responsibility, economic commitment and environmental stewardship.

Program of Study

Level: 01	Courses	Hours
BIO5200	Anatomy and Physiology I	42.0
ENL1813S	Communications 1	42.0

NSG5142L	Nursing IV Practicum (L)	18.0
NSG5142P	Nursing IV Practicum (P)	112.0
NSG5143	Current Issues	27.0
NSG5144A	Consolidation Clinical (A)	320.0

Estimator tool at <https://www.algonquincollege.com/fee-estimator> .

Further information on fees can be found by visiting the Registrar's Office website at <https://www.algonquincollege.com/ro> .

Fees are subject to change.

Additional program related expenses include:

- Students should budget for additional costs to cover nursing uniforms, shoes, stethoscope and travel including parking at clinical agencies during their practicum experiences.
- The cost of text books is approximately \$1,500 in the first year and \$1,000 in year two. Some textbooks are optional and students can utilize those in the Resource Centre.
- The fees for the Regulatory Exam - Practical Nurse (REx-PN), Jurisprudence Exam, Application process and Initial Registration are available at <https://www.cno.org/> .

Admission Requirements for the 2025/2026 Academic Year

College Eligibility

- Ontario Secondary School Diploma (OSSD) or equivalent. Applicants with an OSSD showing senior English and/or mathematics courses at the Basic Level, or with Workplace or Open courses, will be tested to determine their eligibility for admission; OR
- Academic and Career Entrance (ACE) certificate; OR
- General Educational Development (GED) certificate; OR
- Mature Student status (19 years of age or older and without a high school diploma at the start of the program). Eligibility may be determined by academic achievement testing for which a fee will be charged.

Program Eligibility

- English, Grade 12 (ENG4C or equivalent) with a grade of 65% or higher.
- Mathematics, Grade 12 (MAP4C or equivalent) with a grade of 65% or higher.
- Biology, Grade 11 or 12 with a grade of 65% or higher.
- Chemistry, Grade 11 or 12 with a grade of 65% or higher.
- Applicants with international transcripts must provide proof of the subject-specific requirements noted above and may be required to provide proof of language proficiency. Domestic applicants with international transcripts must be evaluated through the International Credential Assessment Service of Canada (ICAS) or World Education Services (WES).
- IELTS-International English Language Testing Service (Academic) overall band of 6.5 with a minimum of 6.0 in each band; OR TOEFL-Internet-based (iBT)-overall 88, with a minimum of 22 in each component: Reading 22; Listening 22; Speaking 22; Writing 22; OR Duolingo English Test (DET) Overall 120, minimum of 120 in Literacy and no score below 105.

Not sure if you meet all of the requirements? Academic Upgrading may be able to help with that: <https://www.algonquincollege.com/access/> .

International Applicants: International applicants who meet the program eligibility requirements are required to complete preparatory courses (4-months in duration): Introduction to Canadian Health Studies (ICHS). Students who successfully complete the introduction will then proceed to their original health program of choice. The ICHS requires applicants to submit an academic IELTS score.

Please click this link for more information:
<http://www.algonquincollege.com/healthandcommunity/ICHS/> .

Clinical Placement Eligibility:

Agencies that provide placement opportunities require you to have a clear Police Records Check

for Service with the Vulnerable Sector (PRCSVS). If you register in the program without a clear PRCSVS and as a result are unable to participate in placement, you will not be able to graduate. A clear PRCSVS is required annually, and more often if requested by the clinical agencies. Successful completion of clinical placement is a requirement for graduation from the Practical Nursing program.

Accepted applicants must be in good health and complete a Health Assessment form providing information related to medical and non-medical requirements. 8 Annual requirements include Tb testing, the influenza vaccine, CPR Level C re-certification and a Police Records Checks for service with Vulnerable Sector. These are required prior to clinical commencement. Should there be a delay in starting the clinical placement, program progression could be negatively impacted.

To be eligible for placement, you must submit proof of a clear PRCSVS, which will be retained on your departmental file and used only for purposes related to your placement. You will be required to disclose the contents of the PRCSVS, including all notations, to the placement agencies.

It is your responsibility to obtain the PRCSVS from your local Police Department prior to the deadline identified by your Department and to pay any associated costs. It may take a long time to obtain this documentation; please submit your application as early as possible. Should you require further information, contact the Program Chair as part of the application process.

Computer skills are required throughout the program.

Admission Requirements for 2024/2025 Academic Year

College Eligibility

- Ontario Secondary School Diploma (OSSD) or equivalent. Applicants with an OSSD showing senior English and/or mathematics courses at the Basic Level, or with Workplace or Open courses, will be tested to determine their eligibility for admission; OR
- Academic and Career Entrance (ACE) certificate; OR
- General Educational Development (GED) certificate; OR
- Mature Student status (19 years of age or older and without a high school diploma at the start of the program). Eligibility may be determined by academic achievement testing for which a fee of \$50 (subject to change) will be charged.

Program Eligibility

- English, Grade 12 (ENG4C or equivalent) with a grade of 65% or higher.
- Mathematics, Grade 12 (MAP4C or equivalent) with a grade of 65% or higher.
- Biology, Grade 11 or 12 with a grade of 65% or higher.
- Chemistry, Grade 11 or 12 with a grade of 65% or higher.
- All applicants must complete an assessment of their knowledge and skills through the Test Centre, and pay an exam fee. Results from the Algonquin College Health Program Admissions Test (AC-HPAT) will be utilized to establish minimum eligibility and applicant ranking. The AC-HPAT can only be written once per academic cycle. For further information on the HPAT and how to book your assessment, please visit Algonquin's Test Centre.
- Applicants with international transcripts must provide proof of the subject-specific requirements noted above and may be required to provide proof of language proficiency. Domestic applicants with international transcripts must be evaluated through the International Credential Assessment Service of Canada (ICAS) or World Education Services (WES).
- IELTS-International English Language Testing Service (Academic) overall band of 6.0 with a minimum of 5.5 in each band; OR TOEFL-Internet-based (iBT)-overall 80, with a minimum of 20 in each component: Reading 20; Listening 20; Speaking 20; Writing 20.
- Not sure if you meet all of the requirements? Academic Upgrading may be able to help with that: <https://www.algonquincollege.com/access/> ..

Application Information

PRACTICAL NURSING Program Code 1704X01FWO

Applications to full-time day programs must be submitted with official transcripts showing completion of the academic admission requirements through:

ontariocolleges.ca
60 Corporate Court
Guelph, Ontario N1G 5J3
1-888-892-2228

Students currently enrolled in an Ontario secondary school should notify their Guidance Office prior to their online application at <https://www.ontariocolleges.ca/> .

Applications for Fall Term and Winter Term admission received by February 1 will be given equal consideration. Applications received after February 1 will be processed on a first-come, first-served basis as long as places are available.

International applicants please visit this link for application process information: <https://algonquincollege.force.com/myACint/> .

For further information on the admissions process, contact:

Registrar's Office
Algonquin College
1385 Woodroffe Ave
Ottawa, ON K2G 1V8
Telephone: 613-727-0002
Toll-free: 1-800-565-4723
TTY: 613-727-7766
Fax: 613-727-7632
Contact: <https://www.algonquincollege.com/ro>

Additional Information

This Full-time day program is also offered at the Pembroke and Perth Campuses. While the learning outcomes at all three Campuses are the same, the subject delivery is reflective of local circumstances which may affect program delivery. Unless there are extenuating and exceptional circumstances, students are required to stay enrolled at the campus to which they were first accepted. In the case of extenuating circumstances, the request must be made to the Chair of the registered campus, with supporting documentation attached. The transfer decision is made at the Chair level.

Please remember that repeating any course is always dependent upon seat availability.

If you opt out of the program for any reason during any semester, you may be advised back into the academic cycle when the next required semester is offered, based on space availability for classroom or clinical courses. You may have to sit out if there is no spot available when you want to return to full-time studies.

The Practical Nursing program highly recommends that all applicants review the CNO Fact Sheet - Requisite Skills and Abilities for Nursing Practice in Ontario - available at <https://www.cno.org/>.

Registration requirements for RPNs are also found at the College of Nurses of Ontario website. They include but are not limited to, the following:

- complete the registration examination.
- complete the jurisprudence examination.
- demonstrate language proficiency in English or French.
- complete a Declaration of Registration Requirements.

Specific information will be contained in the package you receive from the CNO prior to your licensing exams.

Woodroffe Campus offers two intakes per year. In the Fall term, Levels 01 and 03 are offered. In the Winter term, Levels 01, 02, 03 and 04 are offered. During the Spring/Summer term, Levels 02 and 04 are offered. In the September intake, the terms are Fall, Winter, Fall, Winter. In the January intake, the terms are Winter, Spring/Summer, Winter, Spring/Summer.

Clinical placements receive large numbers of health science students and there may be times during your program of study that require you to attend weekend, evening and night clinical experiences. Clinical placements may be within the city or the region and students are required to travel accordingly. Not all students will have clinical placements in specialty areas (i.e.: pediatrics, maternity, mental health, acute medicine and surgery).

Healthcare partners offering clinical placement opportunities have mandatory vaccine requirements. If you have questions about these, or any other placement, consult your Program Coordinator prior to registering.

Clinical placements include long-term care so students are required to have the flu vaccine, and the COVID vaccine as well. For consideration of medical exemptions related to immunization and vaccinations, documentation must be provided to Paramed for review. If medically exempt from the Flu vaccine, please note:

- Facilities have the prerogative to require the flu vaccine in order to proceed with placement and can refuse students who do not have the flu vaccine.
- In the event of an influenza outbreak, learners will have to abide by facility policies.

Course Descriptions

BIO5200 Anatomy and Physiology I

An understanding of human biology is essential to nurses. Learners are introduced to the human body and its functions. Learners build foundational knowledge of anatomy, cells, tissues, and body membranes. This knowledge is applied to the anatomy and physiology of the integumentary, skeletal, muscular, nervous, endocrine systems, and special senses. Through a combination of face-to-face and/or online lectures, exercises, and independent study, students learn differing anatomy and physiology concepts.

Prerequisite(s): none

Corerequisite(s):none

BIO5203 Anatomy and Physiology II

An understanding of human biology is essential to nurses. Lectures build on previous foundational knowledge in human anatomy and physiology. Learners focus on the reproductive, cardiovascular, respiratory, urinary, digestive, and lymphatic systems. Integration of all body systems in maintaining normal human functioning is explored.

Prerequisite(s): BIO5200

Corerequisite(s):none

ENL1813S Communications 1

Communication remains an essential skill sought by employers, regardless of discipline or field of study. Using a practical, vocation-oriented approach, students focus on meeting the requirements of effective communication. Through a combination of lectures, exercises, and independent learning, students practise writing, speaking, reading, listening, locating and documenting information and using technology to communicate professionally. Students develop and strengthen communication skills that contribute to success in both educational and workplace environments.

Prerequisite(s): none

Corerequisite(s):none

ENL5645 Communication Skills for the Practical Nurse

Given the variety and complexity of interactions in which nurses regularly engage, their verbal communication skills must be adaptable to numerous situations and contexts. Furthermore, nurses must write legal documents, and this necessitates a high level of competency with regard to research and written communication. Students examine and apply verbal and non-verbal techniques that assist them in managing inter-professional conflict, bullying and the demands of a client centered care environment. In addition, students apply critical thinking skills and the guidelines mandated by the College of Nurses of Ontario in the composition of vocation-specific written assignments.

Prerequisite(s): ENL1813S

Corerequisite(s):none

GED1704 General Education Elective

Students choose one course, from a group of general education electives, which meets one of the following five theme requirements: Arts in Society, Civic Life, Social and Cultural Understanding, Personal Understanding, and Science and Technology.

Prerequisite(s): none

Corerequisite(s):none

GED1704 General Education Elective

Students choose one course, from a group of general education electives, which meets one of the following five theme requirements: Arts in Society, Civic Life, Social and Cultural Understanding, Personal Understanding, and Science and Technology.

Prerequisite(s): none
Corerequisite(s):none

NSG0151 RPN Exam Prep

Graduates must pass a Practical Nursing licensing exam in order to practice in the province of Ontario. Students develop key strategies to support the format and expectations of a licensing exams. Topics include strategies for writing multiple choice exams, as well as techniques for organizing personal study groups. Anxiety and stress control techniques are discussed and practiced. Students have multiple opportunities to write authentic practice exams, discuss answers and develop strategies to strengthen test-taking skills.

Prerequisite(s): none
Corerequisite(s):none

NSG0158 Pharmacology

Pharmacology is an integral part of nursing care and nurses play a critical role in medication management in various settings within the health-care system. Learners examine differing pharmacotherapeutic agents used in the prevention, maintenance and/or treatment of illness. Focus is on pharmacological concepts through the lifespan.

Prerequisite(s): BIO5203 and NSG0160M and NSG5120 and NSG5125
Corerequisite(s):none

NSG0159 Pathophysiology

This course examines the basic concepts of disease processes which affect physiologic and psychosocial health. Learners study concepts pertaining to disease processes affecting all major systems in the body from a nursing perspective.

Prerequisite(s): BIO5203 and NSG0160M and NSG5120 and NSG5125
Corerequisite(s):none

NSG0160M Nursing II Practicum (M)

Nurses care for persons across the lifespan promoting healthy living that is person-centered. Learners apply health promotion through interviewing assessing, learning-teaching and providing caring interventions while working with persons and/or families living with complex care needs. Through goal planning, group discussions, and applied assignments, learners practise and adapt to various clinical experiences effectively. Learners are guided with a lab experience and by an on-site instructor via a group teaching-learning model. This practicum experience requires travel to an off-campus location.

Prerequisite(s): BIO5200 and NSG5110 and NSG5112L and NSG5112P and NSG5113
Corerequisite(s):NSG5120 and NSG5125

NSG5110 Nursing I Theory

Understanding nursing concepts and theories is essential to the provision of optimal nursing care. Learners are introduced to the nursing metaparadigm and theoretical principles of nursing science and apply the nursing process as a framework for delivery of client-centred care. Learners participate in lectures, case studies, online learning and mobile learning activities. Critical thinking is a key component of this course.

Prerequisite(s): none
Corerequisite(s):NSG5112L and NSG5112P

NSG5112L Nursing I Practicum (L)

Nurses care for persons across the lifespan promoting healthy living that is person-centered. Learners apply basic therapeutic communication and basic care interventions. Demonstrations,

scenarios and hands-on learning activities focus on the skills required to provide basic nursing care.

Prerequisite(s): none

Corerequisite(s):NSG5110 and NSG5112P

NSG5112P Nursing I Practicum (P)

Nurses care for persons across the lifespan promoting healthy living that is person-centered. Learners gain practical experience applying knowledge and skills while also developing critical thinking skills required to safely and effectively providing care in the long-term care environment. Learners practice and adapt to a variety of gerontological care needs. Learners are guided by an on-site instructor via a group teaching-learning model. This practicum experience requires travel to an off-campus long-term care environment.

Prerequisite(s): none

Corerequisite(s):NSG5110 and NSG5112L

NSG5113 Healthcare Consumer

Person-centered care is imperative in the delivery of quality health care. Learners are introduced to theoretical models that support critical thinking while interacting with the health care consumer, using specific strategies, such as learning-teaching, facilitating and promoting change. Learners apply strategies in the context of nursing through group work, presentations, case studies and lectures. The delivery model includes both classroom and online learning.

Prerequisite(s): none

Corerequisite(s):none

NSG5120 Nursing II Theory

Nursing is a dynamic and challenging profession that involves caring for persons across a continuum of age and diverse environments with varying levels of complexity. Nursing concepts and theories that promote healthy growth and development across the lifespan are explored. Emphasis is placed on person-centered care to promote healthy living. Focus is on growth and development concepts through the lifespan.

Prerequisite(s): BIO5200 and NSG5110 and NSG5112L and NSG5112P and NSG5113

Corerequisite(s):NSG0160M and NSG5125

NSG5123 Nursing Research

Nursing practice is informed by a variety of evidence. Learners are introduced to the knowledge and skills necessary to support the development of evidence-informed practice. Emphasis is placed on valuing nursing research and evidence-informed practice, ethics of research and locating and critiquing research to inform practice. Learners engage in both classroom and online learning.

Prerequisite(s): none

Corerequisite(s):none

NSG5125 Health Assessment

Health assessment is an essential framework to provide holistic assessments of clients across the lifespan. Learners apply a systematic and person-centred approach to health assessment. Emphasis is placed on health promotion concepts. Learners practice and apply theoretical concepts in classroom and laboratory settings. Learners participate in lectures, group work, online learning, simulations and applied learning.

Prerequisite(s): BIO5200 and NSG5110 and NSG5112L and NSG5112P and NSG5113

Corerequisite(s):NSG0160M and NSG5120

NSG5130 Nursing III Theory

Health care professionals require an understanding of the needs of persons experiencing acute and chronic illnesses across the lifespan. Building on previous knowledge in the PN program, emphasis is placed on the nursing process, a person-centered approach and holistic care that is evidence-informed. Learners participate in lectures, case studies, and mobile learning activities.

Prerequisite(s): BIO5203 and NSG0160M and NSG5120 and NSG5123 and NSG5125
Corerequisite(s): NSG5133L and NSG5133P

NSG5133L Nursing III Practicum (L)

Caring for persons living with health challenges requires knowledge, skills and critical thinking ability. Through the use of simulation and hands on learning, learners apply knowledge and skills in a simulated learning environment prior to application in the clinical setting. In the lab, learners systematically analyze information, and practice and implement fundamental nursing interventions based on evidence-informed practice.

Prerequisite(s): BIO5203 and NSG0160M and NSG5120 and NSG5125
Corerequisite(s): NSG5130 and NSG5133P

NSG5133P Nursing III Practicum (P)

Persons being cared for in sub-acute and care facilities rely on nurses to help promote quality of life, as defined by the person. This practicum course provides learners with the opportunity to deliver holistic nursing care activities for patients and families experiencing acute and chronic illness. Learners are assigned to an off-campus health care facility and are responsible for assessing patients and their families, providing care to meet their needs and evaluating and documenting the care provided; all under the guidance and supervision of a clinical instructor.

Prerequisite(s): BIO5203 and NSG0160M and NSG5120 and NSG5125
Corerequisite(s): NSG5130 and NSG5133L

NSG5140 Nursing IV Theory

Nursing is a dynamic and challenging process that involves caring for clients across a continuum of age and diverse environments with varying levels of complexity. Using the nursing process, through discussion of a variety of focused clinical exemplars, learners assess patients, intervene to meet identified needs, and evaluate the care they provide in complex health situations. Through lectures, case studies, and online learning, this course prepares learners for clinical practice.

Prerequisite(s): NSG0158 and NSG0159 and NSG5130 and NSG5133L and NSG5133P
Corerequisite(s): NSG5142L and NSG5142P

NSG5142L Nursing IV Practicum (L)

Caring for persons living with health challenges requires knowledge, skills and critical thinking ability. Through the use of simulation and hands on learning, learners apply knowledge and skills in a simulated learning environment prior to application in the clinical setting. In the lab, learners systematically analyze information, and practice and implement fundamental nursing interventions based on evidence-informed practice.

Prerequisite(s): NSG0158 and NSG0159 and NSG5133L
Corerequisite(s): NSG5140 and NSG5142P

NSG5142P Nursing IV Practicum (P)

Caring for persons living with health challenges requires knowledge, skills and critical thinking ability. This Practicum course provides learners with the opportunity to integrate prior learning in the program to care for acutely ill patients, with a primary focus on the person requiring acute medical/surgical healthcare. Learners are assigned to an off-campus health care facility and are responsible for providing caring assessments, interventions, evaluations and documentation under the guidance of a clinical instructor.

Prerequisite(s): NSG0158 and NSG0159 and NSG5130 and NSG5133P

Corerequisite(s):NSG5140 and NSG5142L

NSG5143 Current Issues

Concepts of professionalism, legal and ethical standards of practice are foundational to nursing. Practice standards and guidelines from the College of Nurses of Ontario are used to enable the learner to gain insight into the professional roles and responsibilities of the practical nurse. Focus is on preparing learners for clinical practice and the College of Nurses of Ontario Jurisprudence Exam.

Prerequisite(s): NSG5130 and NSG5133L and NSG5133P

Corerequisite(s):none

NSG5144A Consolidation Clinical (A)

Persons living with acute and chronic illness rely on nurses to promote healthy living. Novice nursing students are provided with the opportunity to focus on a clinical area of interest, consolidate prior learning, and develop their knowledge base and nursing practice expertise. Learners are responsible for caring activities, such as assessment, interviewing, nursing interventions and documentation for individuals and/or families in-off-campus settings, such as hospitals, agencies or home-care. In collaboration with a registered nursing preceptor the learner provides care, develops goals, and reflects on practice in order to be able to develop independence with various clinical experiences. An off-site instructor supervises progression in collaboration with the preceptor.

Prerequisite(s): NSG0151 and NSG5113 and NSG5123 and NSG5140 and NSG5142L and NSG5142P and NSG5143

Corerequisite(s):none

PSY5609 Introduction to Psychology

With its applications to behaviour and personality, psychology extends its reach into many aspects of our personal lives. The broad applications of this social science in both an applied and theoretical context are premised on a number of fundamental principles. Students explore research that defines the current boundaries of the discipline and interact with a number of the foundational concepts that resonate throughout daily life and popular culture. Focus is on differing schools of thought in psychology.

Prerequisite(s): none

Corerequisite(s):none
