Area of Interest: Arts and Design

**Bachelor of Interior Design (Entry Level 06) (Honours) (Co-op)**

Honours Degree
4 Years
Ottawa Campus

**Academic Year:** 2019/2020
**Program Code:** 6148B03FWO

**Our Program**

**Combine strategic and design thinking for a career creating functional spaces.**

Entry into the fourth year of Algonquin College’s Bachelor of Interior Design program offers an opportunity for interior designers already in possession of a diploma credential to upgrade to a baccalaureate degree. After meeting program and college eligibility requirements, you receive Level 06 status in the Bachelor of Interior Design program and complete five online bridging courses. You then progress into the final year of the degree program.

The Bachelor of Interior Design (Honours) degree program prepares you to pursue a professional career related to the design of the built environment. The curriculum integrates professional and general studies with an emphasis on critical thinking and applied research.

Enriched with a focus on environmental and global perspectives in interior design, you learn to consider ecological, economic and social aspects to analyze and design healthy living environments.

The program contains a strong experiential component that includes design studio experiences and an active engagement with the professional design community. In the fourth year, you have the opportunity to specialize in an area of interest specific to the profession and are required to complete an applied research paper.

To complete your degree, you must complete one mandatory paid co-op work term where you gain valuable work experience and network within the industry.

You also earn a Building Biology Advocate (BBA) Certification upon successful completion of the seven required Construction courses.

The integration of theory, analysis and practice prepare you to assume a leadership role within the profession. As a graduate, you are able to apply strategic thinking and a research orientation to your responsibilities as a professional interior designer and can contribute to the development and evolution of the field of design.

**SUCCESS FACTORS**

**This program is well-suited for students who:**

- Are curious about the space in which they live, work and play.
- Want to combine aesthetics, technology and human need into a highly-marketable career choice.
- Enjoy using creative, strategic and critical thinking to solve problems.
- Are interested in examining sustainable and global design issues.
- Enjoy a collaborative and innovative environment for learning.

**Employment**
This program graduates interior designers equipped to fulfill leadership roles within the profession on a national and international level. Graduates may find employment in interior design offices, architectural firms, government planning and facilities management offices, healthcare environments, educational environments or other design and built-environment related fields. Graduates have the skills to work on interdisciplinary, multi-cultural design teams in a variety of settings. Over time, and with suitable experience, some graduates may wish to develop their own firms.

With this degree, graduates may wish to continue their academic studies in interior design and related disciplines, such as environmental studies, environmental psychology and architecture.

**Learning Outcomes**

The graduates have reliably demonstrated the ability to:

- Be competent knowledgeable workers able to apply fundamental concepts and skills of design in a variety of contexts.
- Design built environments consistent with industry standards and best practices.
- Be critical and creative thinkers able to analyze situations, draw conclusions and develop innovative and creative products using an accepted decision-making model.
- Be effective collaborators able to use communication and interpersonal skills to fulfill a leadership role on an interdisciplinary, multi-cultural design team.
- Be continuous learners and contributing professionals able to assume the responsibilities of a professional designer, work within legal and ethical guidelines governing their practice and contribute to the development and evolution of the field of design.
- Be informed citizens able to adapt their work across cultural, social political and geographical contexts.

Fees for the 2019/2020 Academic Year

Tuition and related ancillary fees for this program can be viewed by using the Tuition and Fees Estimator tool at [https://www.algonquincollege.com/fee-estimator](https://www.algonquincollege.com/fee-estimator). Further information on fees can be found by visiting the Registrar’s Office site at [https://www.algonquincollege.com/ro](https://www.algonquincollege.com/ro). Fees are subject to change.

Admission Requirements for the 2020/2021 Academic Year

Program Eligibility

- Graduates of an advanced (3-year) diploma from a recognized interior design program with a minimum cumulative grade point of 3.0 (B) may be eligible to undertake the five course online bridging program which must be successfully completed to enter into the fourth year of the Bachelor of Interior Design program. Bridging students must also complete a minimum of 14 weeks in a paid summer cooperative placement.

Admission Requirements for the 2019/2020 Academic Year

Program Eligibility

- Graduates of an advanced (3-year) diploma from a recognized interior design program with a minimum cumulative grade point of 3.0 (B) may be eligible to undertake the five-course online bridging program which must be successfully completed to enter into the fourth year of the Bachelor of Interior Design program. Bridging students must also complete a minimum of 14 weeks in a paid summer cooperative placement.

Application Information

BACHELOR OF INTERIOR DESIGN (ENTRY LEVEL 06) (HONOURS) (CO-OP)
Program Code 6148B03FWO

Applications to full-time day programs must be submitted with official transcripts showing completion of the academic admission requirements through:

ontariocolleges.ca
60 Corporate Court
Guelph, Ontario N1G 5J3
1-888-892-2228

Applications are available online [http://www.ontariocolleges.ca/](http://www.ontariocolleges.ca/). A $95 fee applies.

Applications for Fall Term and Winter Term admission received by February 1 will be given equal consideration. Applications received after February 1 will be processed on a first-come, first-served basis as long as places are available.

International applicants applying from out-of-country can obtain the International Student Application Form at [https://algonquincollege.force.com/myACint/](https://algonquincollege.force.com/myACint/) or by contacting the Registrar’s Office.

For further information on the admissions process, contact:

Registrar’s Office
Algonquin College
1385 Woodroffe Avenue
Ottawa, ON K2G 1V8
Telephone: 613-727-0002
Toll-free: 1-800-565-4723
TTY: 613-727-7766
Fax: 613-727-7632

Additional Information

Programs at Algonquin College are Bring Your Own Device (BYOD). To see the BYOD requirements...
Algonquin College has been granted consent by the Minister of Training, Colleges and Universities to offer this applied degree for a five-year term starting May 6, 2015. Renewal of Ministerial Consent is a cyclical process. Algonquin College has applied for renewal. The College shall ensure that all students admitted to the above-named program during the period of consent have the opportunity to complete the program within a reasonable timeframe.

As the interior design profession rapidly matures towards more advanced credentialization across the globe, upgrading one’s credential to a baccalaureate degree enables one to function on an equal footing with colleagues around the world. Interior design graduates with a baccalaureate credential may also pursue graduate studies in interior design or related fields.

Bridging to the fourth year of the BID - Bachelor Interior Design has been approved by the Ontario government Postsecondary Education Quality Assessment Board (PEQAB).

The following online courses need to be completed:

Critical Thinking and Academic Writing
Topics in Design History and Theory
Perspectives in Interior Design
Sustainable Issues
Issues in Psychology

TRANSFER CREDIT RECOGNITION:
Applicants with degrees or degree level courses from Canadian institutions empowered to award degrees and from other degree granting institutions recognized by the Ontario Ministry of Training, Colleges and Universities (MTCU) will be assessed on a case-by-case basis. To receive a course credit, a minimum grade of C (65%) is required. Official transcripts and course descriptions/outlines must be presented with the application for credit recognition. Applicants with degrees or degree level courses from countries other than Canada or from postsecondary institutions not recognized by the MTCU must have their degrees evaluated by a recognized Canadian public or private institution that specializes in the evaluation of international degree programs.

ADVANCED STANDING:
Graduates of an advanced (three-year) diploma from a recognized interior design program with a minimum cumulative grade point of 3.0 (B) may be eligible to undertake the five course online bridging program which must be successfully completed to enter into the fourth year of the Bachelor of Interior Design program. Bridging students must also complete a minimum of 14 weeks in a paid summer cooperative placement. Students are strongly encouraged to seek employment with firms who are members of professional associations such as IDC, ARIDO, OAA, OAQ, APDI or ASID. Applicants must submit a complete transcript from the previous academic institution and course descriptions for all courses taken within the advanced diploma. The submission of a personal portfolio is also required. For information on how to prepare this portfolio and submission details, please refer to Algonquin’s document entitled Bridging to 4th year Bachelor of Interior Design Degree Algonquin - located under Portfolio & FAQ on this page.

Further information on bridging course requirements and the cooperative placement are also detailed at this link.

DEGREE ELECTIVE INFORMATION:
Students may choose from a variety of breadth courses. Courses from a range of disciplines are offered within the humanities, social sciences, sciences, global cultures and mathematics. Elective offerings may vary from semester to semester.

CO-OP INFORMATION:
Cooperative education (Co-op) allows students to integrate their classroom learning with a real-world experience though paid work terms. Two academic terms prior to the cooperative education work term, students are required to actively participate in and successfully complete the self-directed co-op online readiness activities and in-person workshops.

Students must actively conduct a guided, self-directed job search and are responsible for securing approved program-related paid co-op employment. Students compete for co-op positions alongside students from Algonquin and other Canadian and international colleges and universities. Algonquin College’s Co-op Department provides assistance in developing co-op job opportunities and facilitates the overall process, but does not guarantee that a student will obtain employment in a co-op work term. Co-op students may be required to re-locate to take part in the co-op
employment opportunities available in their industry and must cover all associated expenses; e.g., travel, work permits, visa applications, accommodation and all other incurred expenses.

Co-op work terms are typically 14 weeks in duration and are completed during a term when students are not taking courses.

International students enrolled in a co-op program are required by Immigration, Refugees and Citizenship Canada (IRCC) to have a valid co-op work permit prior to commencing their work term. Without this document, International students are not legally eligible to engage in work in Canada that is a mandatory part of an academic program.

For more information, please visit https://www.algonquincollege.com/coop.

Successful completion of all courses, including the mandatory cooperative education (Co-op) Work Term(s) is a requirement for graduation.

For more information, please visit https://www.algonquincollege.com/ for program updates as they become available or contact 613-727-4723 or design@algonquincollge.com.

Specifications for laptop requirements can be found at https://www7.algonquincollege.com/byod/device.htm.

Course Descriptions

**CUL4000 Global Citizenship**

Informed citizens in today's world appreciate the meaning of civic life at the local, national and global level. Students reflect on and develop a personal awareness of the meaning of freedoms, rights and obligations in a diverse global community and consider the political, social and economic drivers that influence patterns of human behaviour and the health of the planet. Based on general principles of global citizenship, students look beyond national borders to assess personal responsibilities related to the health and well-being of the planet and inhabitants. Students critically evaluate information related to environmental and social health, equipped with attitudes and behaviours that foster global environmental and social responsibility.

Prerequisite(s): ENL1100 and PHI1000
Corequisite(s):none

**DSN4001 Critical Thinking and Academic Writing**

Exercises in speaking, writing, researching and discussing of academic texts inform the preparation of academic documents including summaries, response papers and formal essays. An introduction to research methods and scholarly texts prepares learners to engage in academic thinking and communication activities. Learners develop the capacity to articulate independent thought, apply sound logic and explore a variety of problem-solving methods.

Prerequisite(s): none
Corequisite(s):none

**DSN4002 Topics in Design History and Theory**

Through lectures, independent research, and group activities, learners develop the ability to identify and explain historical and theoretical topics related to the design of the built environment within a broader art and design context, both historical and cultural. Learners identify and analyze the evolution of design themes and link past work with the future of design.

Prerequisite(s): none
Corequisite(s):none

**DSN4003 Perspectives in Interior Design**

Students study the major influencers of design decisions (e.g. cultural implications, technology, demographic trends, sustainability, and business factors) in order to more fully understand the complexity of future design decision making. Emphasis is placed upon the study of factors affecting specific design sectors (e.g. corporate, health-care, hospitality, retail, residential), in addition to
the overlapping concerns which designers must address. Topics such as "green" design, generational design, infection management, the democratization of design, "stay-in-place housing" are discussed and analyzed in order to separate substantive issue from trend. Current design issues, including licensing, LEED accreditation, Bill 124 examinations, community-based design initiatives are also discussed.

Prerequisite(s): none
Corerequisite(s): none

**DSN4004 Sustainable Issues**

Students study the history and evolution of the built environment and the effects of human development on the availability of natural resources. Students also examine the role of interior designers and other professionals responsible for the built environment in working towards a sustainable future. Topics address a broad range of societal, environmental and ecological issues from a holistic perspective. Students are required to critically explore ways of sustaining global well-being through the exploration of current and future innovations in alternative methods, materials and systems.

Prerequisite(s): none
Corerequisite(s): none

**DSN4005 Issues in Psychology**

Students develop an understanding of psychological concepts as they apply to the relationship of human behaviour to the natural and built environments. Students link an understanding of human behaviour to the design of spaces to suit a variety of occupant needs.

Prerequisite(s): none
Corerequisite(s): none

**DSN4073 Applied Research**

An understanding of applied research, the process of applying existing knowledge or processes to create useful products or services, is provided. A major applied research project serves as the vehicle for developing skills in analyzing qualitative data, establishing an implementation plan, conducting research and reporting on it.

Prerequisite(s): ENL2015 and PHI2000
Corerequisite(s): none

**DSN4076 Design Studio VII**

Students apply knowledge obtained in the previous years to complete studio assignments centered upon complex environments with an emphasis on the hospitality sector. They engage in advanced research, analysis and synthesis of information to create unique, innovative and responsible solutions as faculty take on an "advisory role," similar to that of a senior designer in an office setting.

Prerequisite(s): DSN0032 and DSN0033 and DSN4066
Corerequisite(s): none

**DSN4078 Construction VII**

Focus is on developing an understanding of the integration and coordination of building components through the study of building materials and construction details pertinent to complex hospitality facilities. Applicable building codes and regulations are examined and applied as they relate to hospitality construction and interior environments. Students increase their ability to transfer design concepts into production documents. Building Biology Advocate (BBA) Certification upon successful completion of Construction 07. Students will also partake in an integrated, multidisciplinary construction workshop.

Prerequisite(s): DSN0032 and DSN0033 and DSN4066
Corerequisite(s): none
DSN4080 Senior Project

In this culminating advanced studio, students are guided by faculty to apply their accumulated knowledge to a topic and design sector of their choosing. Students apply research they conducted to their design concept, design development and detail packages. Utilizing peer critiques, pin-ups, collaboration and industry feedback, the students work through the design process to arrive at a human centered solution that meets the applicable codes and regulations and effectively communicates their solution from 2D into 3D.

Prerequisite(s): DSN0034 and DSN4073 and DSN4076 and DSN4078
Corequisite(s): none

DSN4081 Senior Seminar

Focus is on readings and discussions of contemporary thought and movements within the field of interior design and architecture with special emphasis on the future of design and design criticism. Through guest lectures and a variety of topics, students reflect upon current design issues, trends and implications for future design interventions.

Prerequisite(s): ENL2015 and PHI1000
Corequisite(s): none

DSN4083 Professional Practice and Ethics II

Students continue their study of the current state of interior design profession and practice, business and project management and ethical conduct as they prepare for employment as a professional designer after graduation. Students engage in research, analysis, and discussion of topics related to varying workplace environments and practices both in Canada and abroad to better understand global design and business practices.

Prerequisite(s): DSN4059 and DSN4076
Corequisite(s): none

DSN4094 Community Connection IV

The spirit of volunteerism and community involvement is an important professional goal. Participating in industry and college events and activities allows students to learn about the interior design and allied professions, design education and the local community at large. This helps develop a responsible and positive professional and personal standard, essential for the practicing interior designer and as a conscientious citizen.

Prerequisite(s): none
Corequisite(s): none

DSN4100 Co-Operative Work Term

Students with the opportunity to consolidate and apply acquired knowledge and skills in a related work area. Students work as members of a design team and are challenged to address increasingly complex design situations encountered in the workplace. Students are encouraged to assess their own performance in the work they produce and to build their professional portfolios. Students have the opportunity to explore opportunities within the sector of the industry and city of their choosing.

Prerequisite(s): DSN0032 and DSN0033 and DSN4059 and DSN4066
Corequisite(s): none

ECO2000 Environmental Economics

Issues pertaining to the environment have a major financial impact on society and government. Environmental economics examines the way human decisions affect the quality of the environment, how human values and institutions shape our demands for improvements in the quality and about
designing effective public policies to bring about these improvements. Students examine problems and solutions relating to environmental policy analysis in the Canadian context.

Prerequisite(s): ENL1100 and PHI1000
Corerequisite(s): none

**ENL4016 World Literature**

Exposure to broad sources of literature promotes an open-minded perspective on today's global society and encourages an appreciation of diversity and human differences. In World Literature, students explore key literary works from around the world and examine the socio-historical and cultural contexts in which authors wrote and set these texts. Students learn to identify common themes and apply literary and cultural theory to these works towards expanding critical thinking skills and developing an analytical vocabulary. Through seminar presentations, group discussions, debates, journaling, and creative writing, students grapple with literary representations of social, political, and cultural issues from around the world, gaining an appreciation of what it means to be responsible global citizens and possess the ability to listen to, question, and value diverse perspectives.

Prerequisite(s): ENL1100
Corerequisite(s): none

**SOC4001 Global Perspectives**

Sociology, through its exploration of the organization of society and the connections between people and their surroundings, provides new ways of looking at the world. Using fundamental knowledge in the field of sociology, students analyze globalization and its impact on Canadian society. Students take opposing views to debate the opportunities and challenges that come with globalization.

Prerequisite(s): SOC2000
Corerequisite(s): none
