## **Business Processes And What To Expect**

**Bryan Eburne**, Manager, Student Information System Implementation and Business Transformation

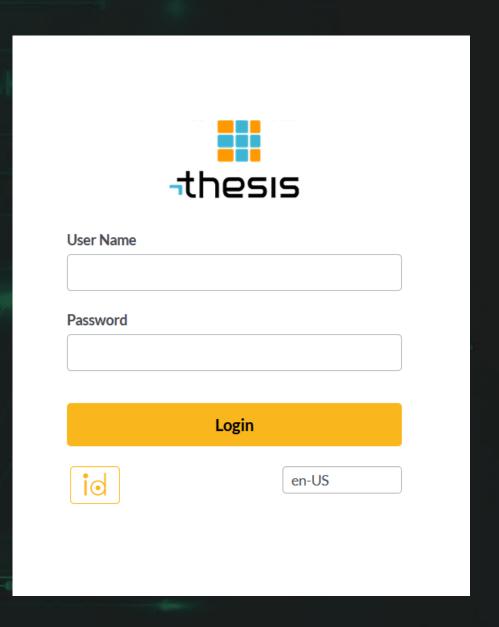

Laura Williams, Project Manager, R3 Communications, Change Management, and Training

# Thesis SM is the new Algonquin College Student Information System

Algonquin College has acquired the services of Thesis, a global company that specializes in providing technical solutions to colleges and universities around the world.

Thesis SM is the name of the Student Information System.

Thesis SM comes with "built-in" business processes that are common to many global post-secondary institutions.

#### GeneSIS vs. Thesis SM

(What we have vs. what we bought,

#### GeneSIS

- Program based SIS
- Baséd on Ontario College policies and procedures
- College-specific business processes
- ~30 years of AC customization
- Progression based on GPA and Level success

#### Thesis SM

- Course based SIS
- Based on global industry postsecondary model
- Global post-secondary business processes
- 0 years of AC customization
- Progression based on pre-requisites, co-requisites

# How Thesis SM business processes are adapted to meet Algonquin College's needs.

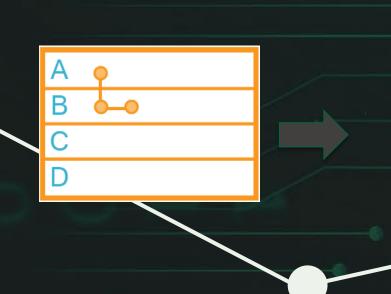

Step 1.
Review how the
Business
Process is done
in Thesis SM

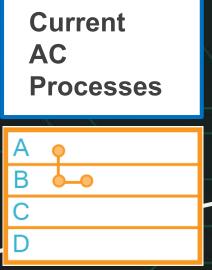

Step 2.
Compare with how we do the similar Business Process at AC

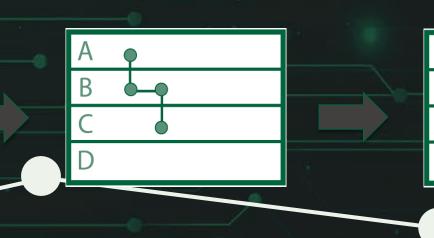

Step 3.
Consult
with Stakeholders.
Draft new AC
Business Process
adapted from Thesis
SM

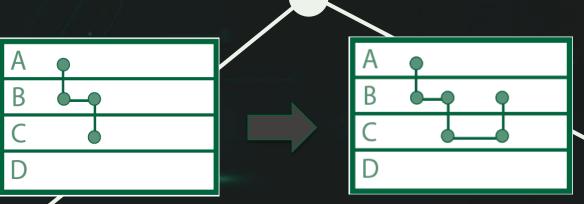

Step 4.
Do Draft Business
Process
Walkthrough with
AC Community

**Step 5.**Finalize Future AC
Business Process

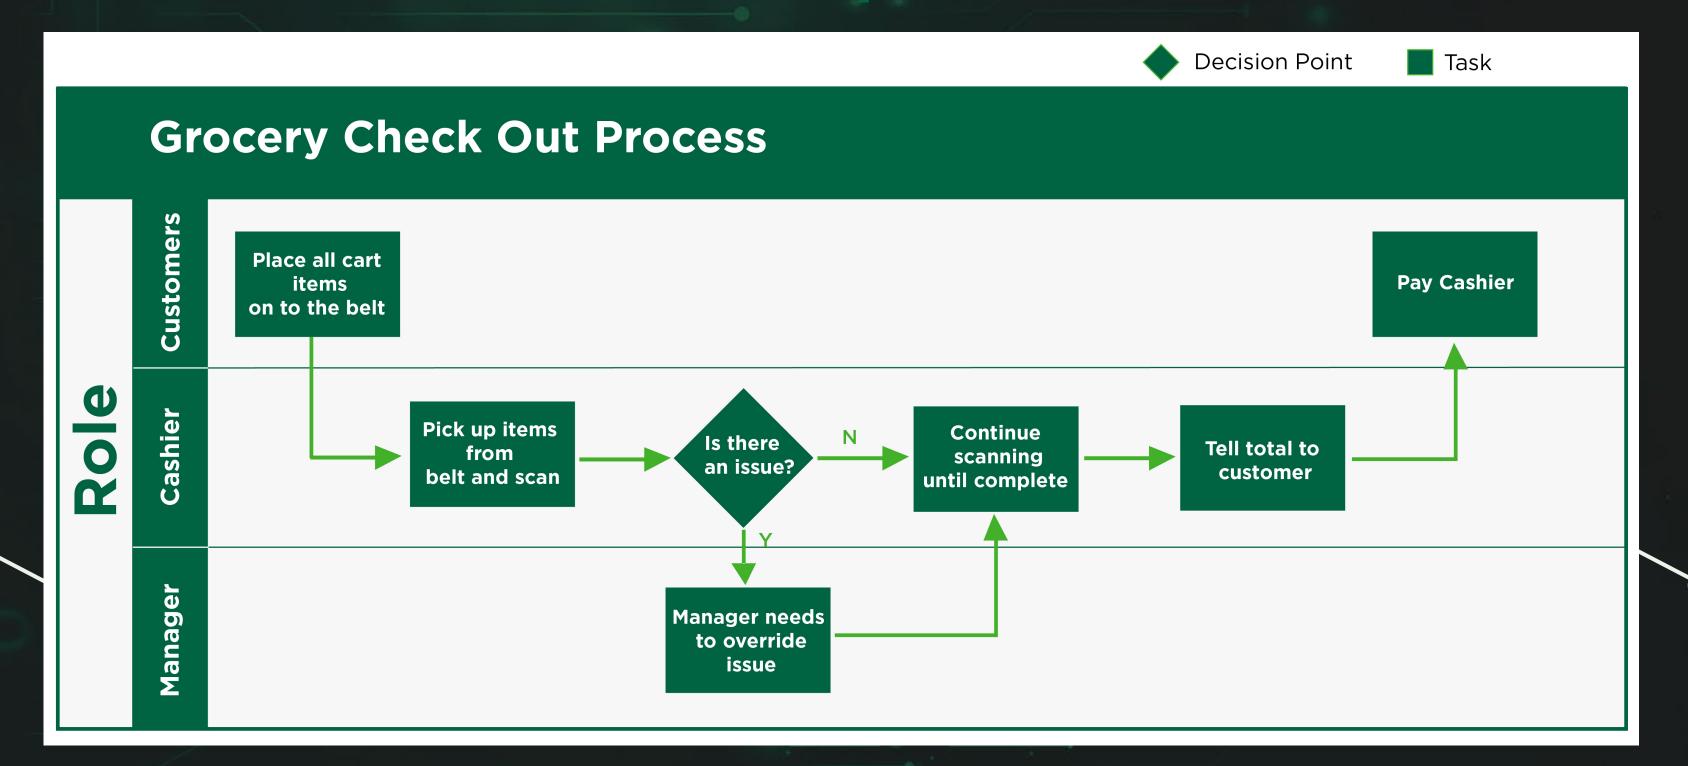

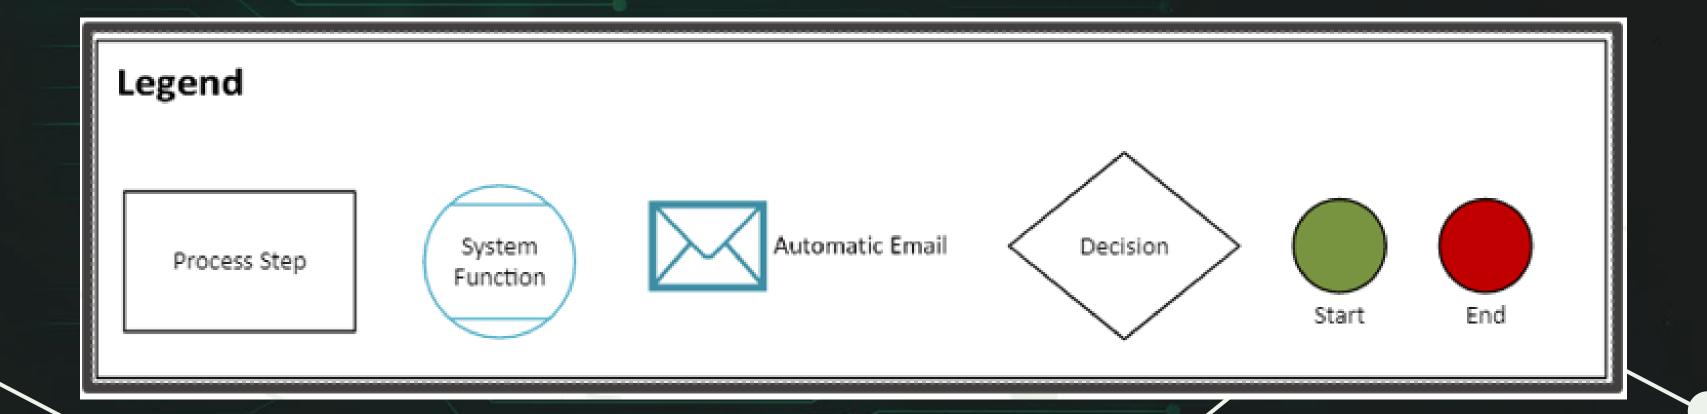

## **Business Process Example**

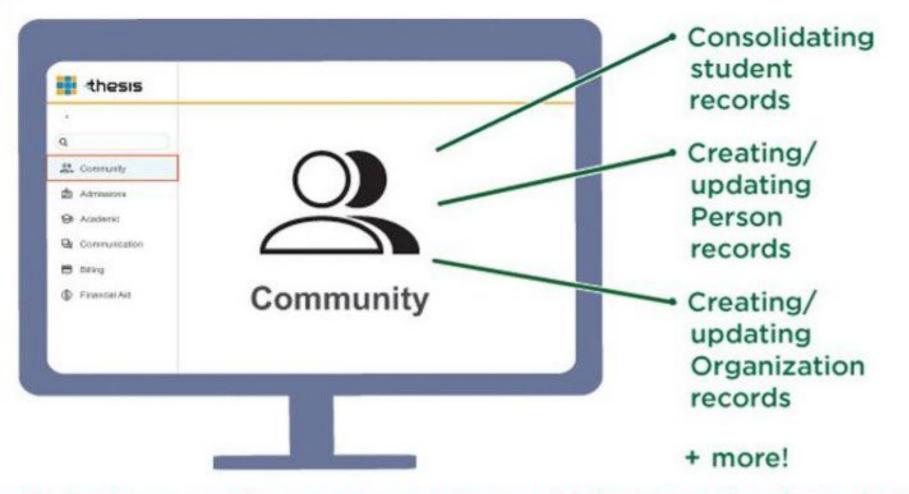

## Legend Review

#### **Community Module**

The Community module is a main menu option within the Student Information System, Thesis SM. This module allows the College to access and modify information about Individuals and Organizations in Thesis SM. Examples include: consolidating Student Records, creating/updating Person Records, creating/updating Organization Records and many more.

## Business Process Walkthroughs | Community Module

Samantha Harris, Business Systems Analyst

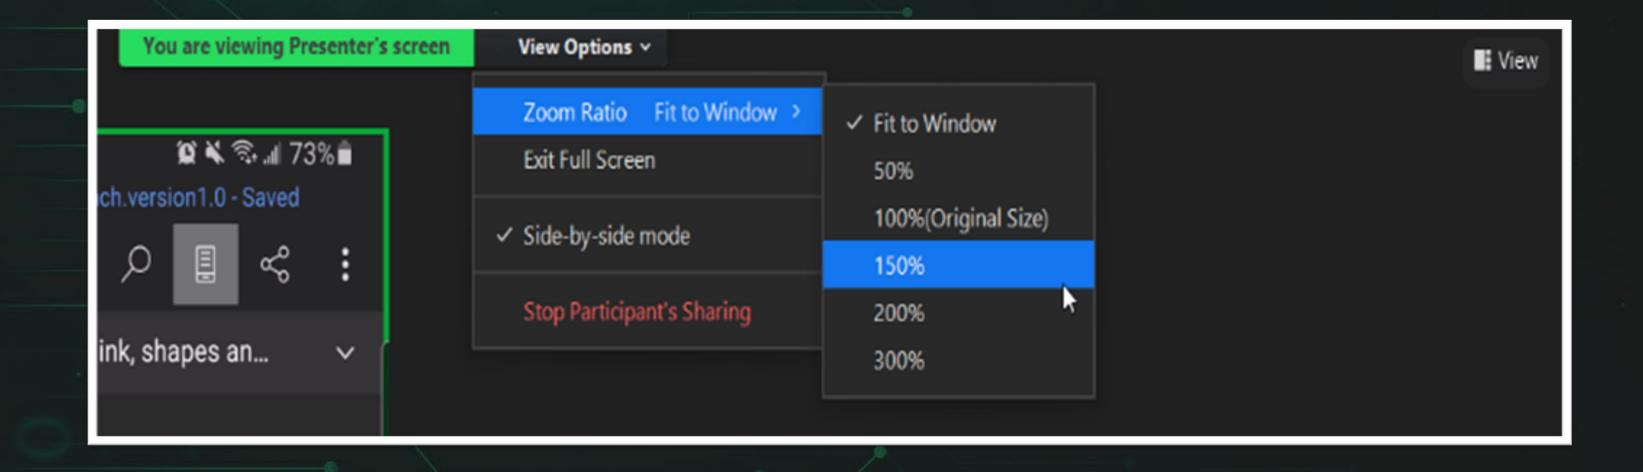

### **Draft Business Processes to Review:**

- 1. Greate/Update Organization Records
- 2. Create/Update Organization Contact
- 3. Manage Matched Records

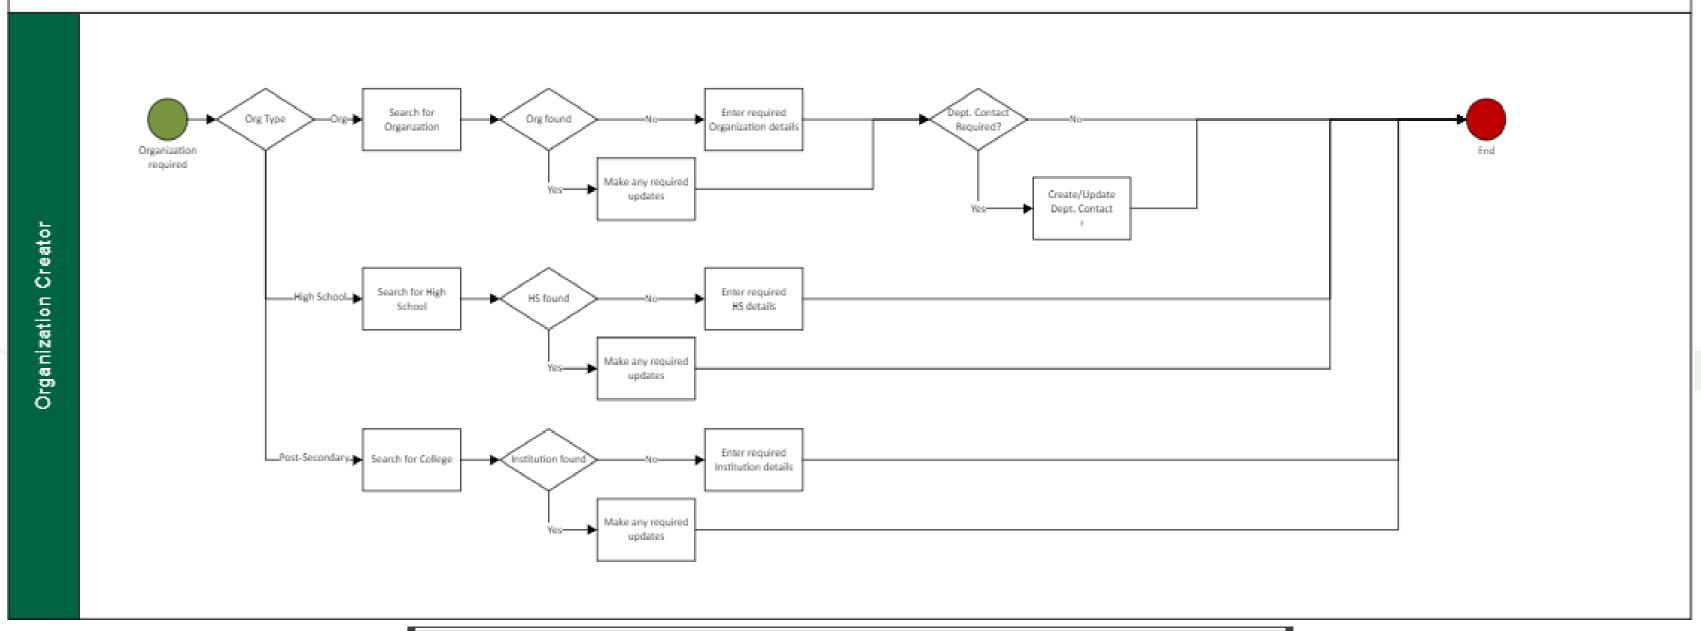

#### Instructions: How to Zoom in

#### COM-103-Create/Update Organization (Draft)

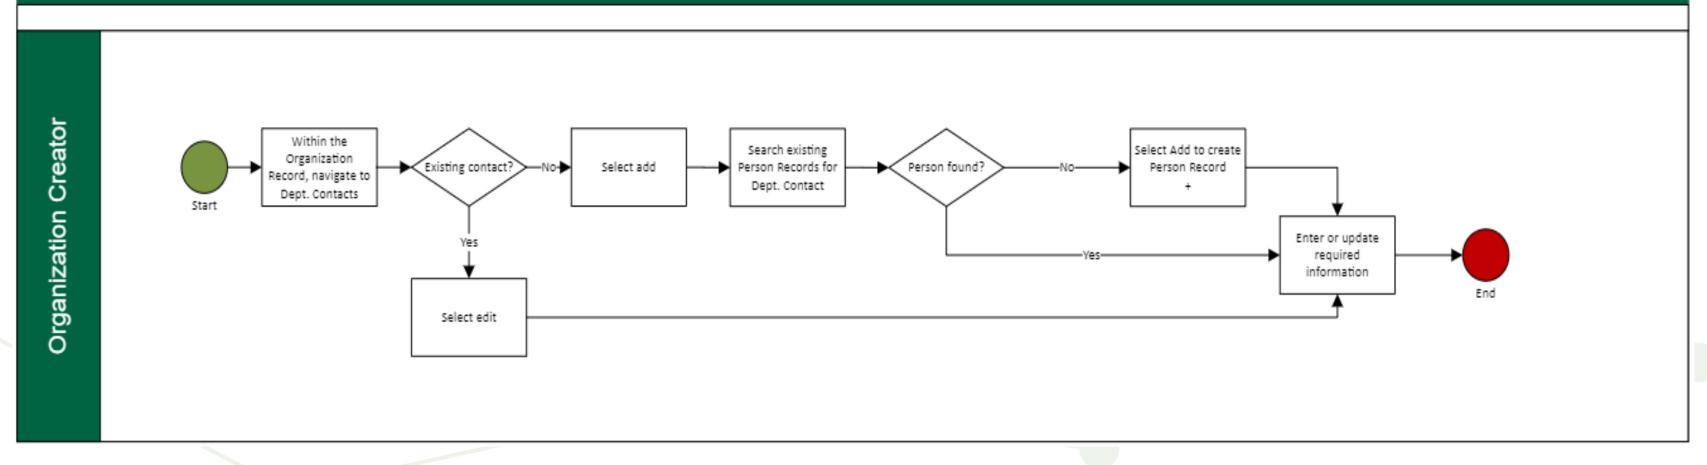

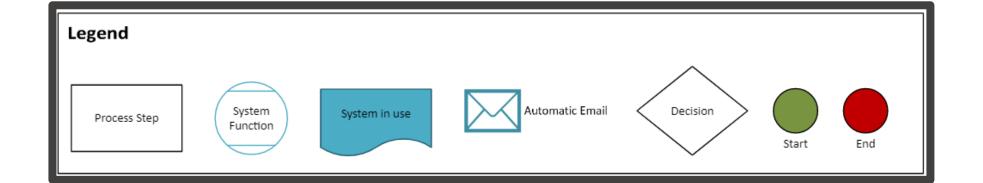

Module: Community

Rel. Thesis Process: Community - HEM1.05 - Create New Organization Contact | Related Functional Spec: SIS-FS-COM-103 - Create Update Organization

Description: The Create/Update Departmental Contact workflow documents how to assign a contact to an Organization record.

#### COM-103-Create/Update Organization Departmental Contact (Draft)

Module: Community

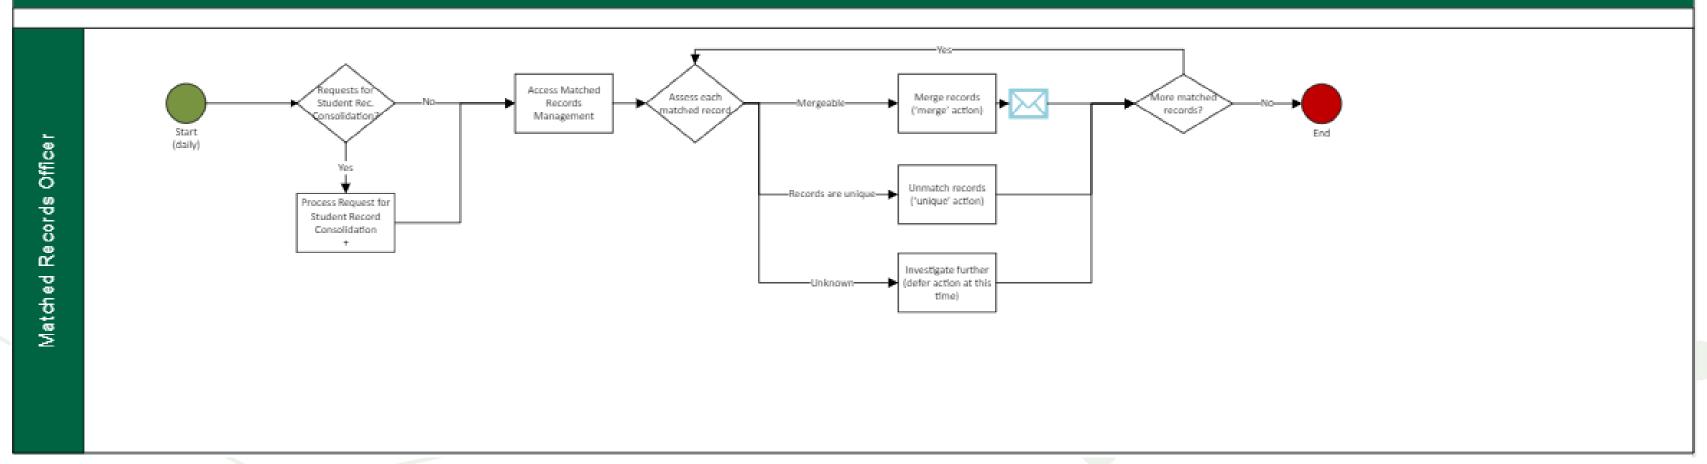

Rel. Thesis process: N/A

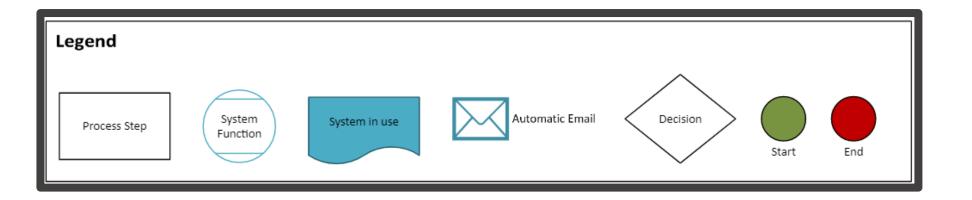

Description:

The Matched Record Management workflow details the list of steps required to receive and process a student request for record consolidation, and/or mitigate system identified matched records.

Related Functional Spec: SIS-FS-COM-105 - Matched Records Management

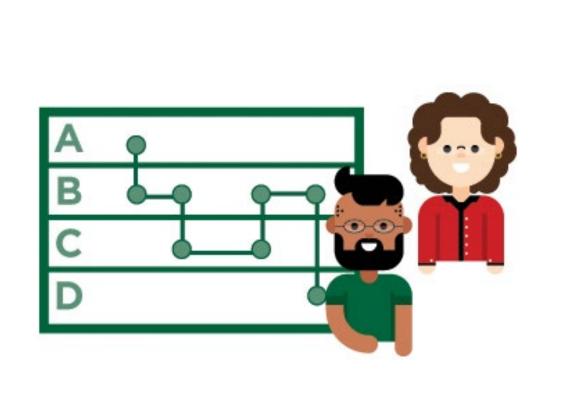

#### SIS-BPM-COM-105 - Matched Records Management (Draft)

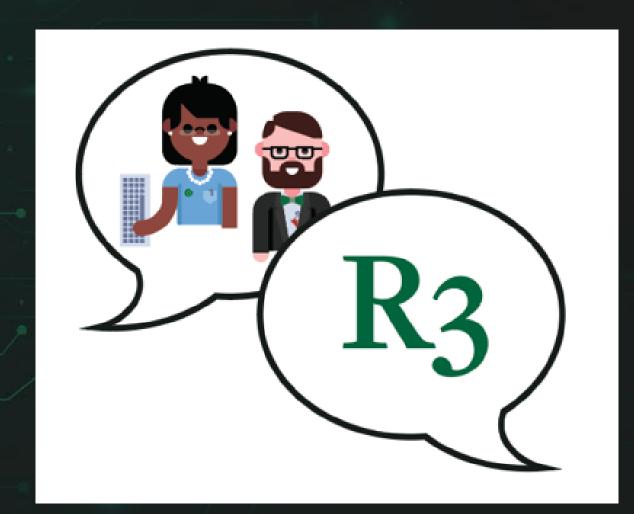

#### Next Business Process Walkthrough

Tuesday, May 30, 2023

#### **Next Showcase**

Monday, May 1, 2023
