AUDITORS' REPORT TO THE BOARD OF GOVERNORS OF THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

We have audited the statement of financial position of The Algonquin College of Applied Arts and Technology as at March 31, 2007 and the statements of operations, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the College as at March 31, 2007 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements

Year ended March 31, 2007

1. Description:

The Algonquin College of Applied Arts and Technology was incorporated as a College in 1966 under the laws of the Province of Ontario. The College is dedicated to providing post-secondary education.

The College is a registered charity and therefore is, under Section 149 of the Income Tax Act, exempt from payment of income tax.

The financial statements reflect the assets, liabilities, net assets, revenue, expenditures and other transactions of all of the operations and organizations controlled by the College. Accordingly, these financial statements include the academic, administrative and other operating expenditures funded by fees, grants and other general revenue; restricted purpose endowment funds, and the ancillary operations of the College.

2. Significant accounting policies:

(a) General:

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

(b) Inventory:

Inventory is valued at the lower of cost and net realizable value. Cost is determined on a first-in, first-out basis.

(c) Investments:

(i) Short-term investments:

Short-term investments are designated as held to maturity and are measured at amortized cost using the effective interest method. Purchases of short-term investments are recorded on the settlement date.

(ii) Endowed investments:

Endowed investments are designated as available for sale and are recorded at fair value. Realized investment income and unrealized gains or losses from the change in fair value are recorded in the statement of changes in net assets. Fair value is determined at quoted market prices. Sales and purchases of endowed investments are recorded on the settlement date. Transaction costs related to the acquisition of endowed investments are recorded against the realized investment income of the endowment fund.

For the 2005 comparative period, endowed investments are recorded at the lower of cost or fair value if the decline in fair value is considered to be other than temporary (see note 3).

THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2007

2. Significant accounting policies (continued):

(d) Capital assets:

Capital assets in excess of \$1,000 are recorded at cost with the following exceptions:

- (i) Academic furniture and library holdings are charged to expenditures in the year of acquisition.
- (ii) Computer software is charged to expenditures in the year of acquisition.
- (iii) Land originally acquired at the Woodroffe campus is recorded at a nominal value of \$1 with subsequent additions at cost.

Donated capital assets are recorded at the value of the receipt issued to the donor, which reflects estimated fair value of the capital asset at the time of the donation.

Construction in progress is not amortized until the project is complete and the facilities come into use.

Amortization is provided on a straight-line basis over the estimated useful lives as follows:

Asset	Useful life
Buildings	40 years
Site improvements	10 years
Parking lots	10 years
Equipment	5 years
Laptop/desktop computers	48 months
Automotive equipment	5 years
ITS infrastructure	5 years
Residence furniture and appliances	5 years
Equipment under capital lease	Over term of lease

(e) Deferred capital contributions:

Contributions received for capital assets are deferred and amortized over the same term and on the same basis as the related capital asset.

(f) Revenue:

- (i) Grants and donations are recorded using the deferral method of accounting for contributions. Unrestricted contributions are recognized as revenue when received or receivable. Contributions externally restricted for purposes other than endowment are deferred and recognized as revenue in the period in which the related expenditures are recognized. Endowment contributions are recognized as direct increases in net assets in the period in which they are received.
- (ii) Student tuition fees are recorded in the accounts based on the academic period of the specific courses. Tuition fees are deferred to the extent that the courses extend beyond the fiscal year of the College.

THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2007

2. Significant accounting policies (continued):

(f) Revenue (continued):

(iii) Contract educational services are recorded in the accounts based on the services provided in the College's fiscal year on a percentage of completion basis.

(iv) Restricted investment income is recognized as revenue in the year that the related expenditures are incurred. Unrestricted investment income is recognized as revenue when earned.

(g) Student organizations:

These financial statements do not reflect the assets, liabilities and results of operations of the various student organizations at the College.

(h) Contributed services:

Volunteers contribute an indeterminable number of hours per year to assist the College in carrying out its service delivery activities. Because of the difficulty of determining their fair value, contributed services are not recognized in these financial statements.

(i) Leases:

Leases are classified as either capital or operating in nature. Capital leases are those which substantially transfer the benefits and risks of ownership to the College. Assets acquired under capital leases are amortized at the same rates as those described in note 2(d). Obligations recorded under capital leases are reduced by the principal portion of lease payments. The imputed interest portion of lease payments is charged to expense.

(j) Employee benefit plans:

The College accrues its obligations for employee benefit plans. The cost of non-pension post-retirement and post-employment benefits earned by employees is actuarially determined using the projected benefit method pro-rated on service and management's best estimate of retirement ages of employees and expected health care costs.

(k) Interest rate swaps:

The College is party to interest rate swap agreements used to manage the exposure to market risks from changing interest rates. The College's policy is not to utilize derivative financial instruments for trading or speculative purposes.

The College formally documents all relationships between hedging instruments and hedged items, as well as its risk management objectives and strategies for undertaking various hedge transactions. This process includes linking the interest rate swaps to specific long-term debt on the statement of financial position. The College also formally assesses, both at the hedge's inception and on an on-going basis, whether the interest rate swaps that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items.

THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2007

2. Significant accounting policies (continued):

(k) Interest rate swaps (continued):

For the interest rate swap agreements, the difference between the swap interest rate and the actual interest rate on the long-term debt is recognized as an adjustment to interest expense on long-term debt.

(j) Use of estimates:

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the period. Actual results could differ from these estimates. These estimates are reviewed annually and as adjustments become necessary, they are recorded in the financial statements in the period in which they become known.

3. Accounting changes – financial instruments:

In 2005, the Canadian Institute of Chartered Accountants released *Handbook Section 3855, Financial Instruments - Recognition and Measurement*, and *Section 3865 Hedges*. These new standards changed the way certain financial assets and liabilities are accounted for and reported in the financial statements.

The College elected to adopt these Sections effective April 1, 2005. In accordance with the transitional provisions of these Sections, the College has prospectively adopted the recommendations, and therefore the 2005 comparative figures have not been restated.

(a) Endowed investments:

The College has designated its endowed investments as available for sale and, as such, these investments are recorded at fair value for the 2006 and 2007 fiscal years. Prior to fiscal 2006, endowed investments were recorded at cost and realized gains and losses were recognized in the year of disposal.

As a result of adopting these Sections, the opening balance of the endowment fund in fiscal 2006 has been increased by \$376,748 to \$4,077,688 to reflect the prior year's net appreciation of the fair value of endowed investments.

THE ALGONQUIN COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2007

3. Accounting changes – financial instruments (continued):

(b) Interest rate swaps:

In its implementation of the aforementioned Handbook Sections, the College did not record the fair value of its interest rate swaps on the statement of financial position and statement of changes in net assets in the 2006 financial statements. The 2006 comparative figures have been restated to reflect the fair value of the interest rate swaps. Fair value is determined as the payment required to cancel the interest rate swaps as at March 31. The effect of this restatement is to decrease opening net assets by \$8,905,906, and to increase long-term liabilities and decrease ending net assets by \$8,548,572 in fiscal 2006. The terms of the interest rate swaps are disclosed in note 9(b).

4. Inventory:

	2007	2006	2005

	\$ 1,692,111	\$ 1,662,288	\$ 1,507,470

5. Endowment assets:

Endowment assets represent funds held or receivable by the College which have been permanently endowed.

For the 2006 and 2007 fiscal years, the carrying value of endowed investments is recorded at fair value. For the 2005 comparative year, the carrying value of endowed investments is recorded at cost (see note 3).

7. Deferred revenue (continued):

Student tuition fees are for academic courses which extend beyond the fiscal year of the College.

Grants and reimbursements are unexpended restricted grants to be spent on future specific projects, including improvements and investments in the College's campus facilities, information systems, equipment and programs.

Contract education services represent prepayments for courses to be held in subsequent years.

Student aid represents the unexpended donations and interest to be spent on student scholarships and bursaries in future years.

Miscellaneous projects include contributions, deposits and prepayments related to small, miscellaneous activities of the College.

8. Obligations under capital leases:

The College is committed to minimum lease payments for food services equipment until 2008 and for publishing equipment until 2011. Future minimum annual lease payments are as follows:

2008	\$ 298,798
2009	135,040
2010	32,493
2011	21,613

9. Long-term debt and interest rate swaps:

(a) Long-term debt:

The College has entered into the following long-term debt agreements to finance renovations to the Food and Beverage facilities, the construction of student residences, the Police and Public Safety Building, the Automotive Trades Centre and the purchase of land for the Corporate Training Centre (Kanata).

	2007	2006	2005
Residence I building loan, bearing interest at prime plus 0.40%, maturing in 2025 (note 9(b))	\$ 11,451,500	\$ 11,742,982	\$ 12,015,085

9. Long-term debt and interest rate swaps (continued):

(b) Interest rate swaps:

The College has entered into interest rate swap agreements to manage the volatility of interest rates. The College converted a net notional \$59.0 million of floating rate long-term debt relating to the three phases of the Residence and the Police & Public Safety Institute (see note 9(a)). The fixed rates received under the interest rate swaps range from 5.97% to 6.95%. The maturity dates of the interest rate swaps are the same as the maturity dates of the associated long-term debt, ranging from 2025 to 2029.

These interest rate swaps qualify, and have been designated by the College, as cash flow hedging items against the floating rate long-term debt. The College has assessed the hedging relationship as effective. The fair value of the interest rate swaps of \$8,669,685 (2006-\$8,548,572) is recorded on the statement of financial position. Because the hedging relationship is effective, the change in fair value of the interest rate swaps is recorded in the statement of changes in net assets, with no impact on the College's excess of revenue over expenditures.

10. Deferred capital contributions:

Deferred capital contributions represent the unamortized amount of donations and grants received for the purchase of capital assets. The amortization of the deferred capital contributions is recorded as revenue in the statement of operations. The changes in the deferred capital contributions balance are as follows:

	2007	2006	2005
Balance, beginning of year	\$ 68,685,808	\$ 65,753,475	\$ 61,389,746
Less amortization of deferred capital contributions	(5,553,623)	(5,553,799)	(4,183,164)

12. Internally restricted net assets:

Internally restricted net assets are funds restricted by the College for future projects to improve and invest in the College's campus facilities, information systems, equipment, programs, student aid and employee retraining. Internally restricted assets consist of the following:

	2007	2006	2005
Appropriations	\$ 4,235,821	\$ 3,623,000	\$ 6,393,737
Specific reserves	8,366,805	3,326,000	—
Reserve funds:			
General reserve fund – sale of Rideau Campus	5,925,000	—	—
General reserve fund	8,734,056	3,168,000	—
Ancillary reserve fund	2,421,500	997,000	—
Rural campus reserve fund	1,000,000	—	—
Employment stabilization funds	251,693	264,400	219,627
Other student aid	5,968	5,053	4,099
Balance, end of year	\$ 30,940,843	\$ 11,383,453	\$ 6,617,463

13. Endowment fund:

Endowed funds consist of external contributions that either the donor or the College has designated as a permanent endowment. The endowed funds cannot be expended by the College. The annual income earned on the endowed funds may be expended only for the externally restricted purpose specified by the donor or the College. Total endowments include \$6,859,246 in endowed funds relating to the Ontario Student Opportunity Trust Fund and Ontario Trust for Student Support. Included in the student aid portion of the deferred revenue (note 7), is \$68,755 of investment income available for distribution relating to the Ontario Student Opportunity Trust Fund (note 24).

The College's endowment policy is to annually distribute 4% of the average endowment balance.

The purpose of this policy is to allow the College to distribute a consistent amount of income from the endowed funds on an annual basis regardless of the investment income actually earned in the fiscal year.

The endowment fund balance at March 31, 2007 consists of \$6,273,315 (2006 - \$4,976,869; 2005 - \$3,607,591) of permanently endowed contributions from donors and \$307,967 (2006 - \$159,738; 2005 - \$93,349) of realized net investment income available for distribution and \$962,694 (2006 - \$693,638) of unrealized investment income due to changes in the fair value of endowment assets.

The change in the endowment fund balance in 2007 consists of \$1,296,446 (2006 - \$1,369,278) of permanently endowed contributions, \$148,229 (2006 - \$66,389) increase in realized net investment income available for distribution, and \$269,056 (2006 - \$316,890) increase in unrealized investment income due to changes in the fair value of endowment assets.

14. Employee benefits plans:

(a) Pension plan:

Substantially all of the employees of the College are members of the Colleges of Applied Arts and Technology ("CAAT") Pension Plan (the "Plan"), which is a multi-employer defined benefit pension plan available to all eligible employees of the participating members of the CAAT. Plan members will receive benefits based on the length of service and on the average of annualized earnings during the highest five consecutive years prior to retirement, termination or death.

Pension assets consist of investment grade securities. Market and credit risk on these securities are managed by the Plan by placing Plan assets in trust and through the Plan investment policy.

The College's pension expense is calculated in accordance with the contribution formula contained in the Plan Text, using Plan management's best estimates, in consultation with its actuaries. The funding objective is for employer contributions to the Plan to remain a constant percentage of employees' contributions.

Variances between actuarial funding estimates and actual experience may be material and any differences are generally to be funded by the participating members. The most recent triennial actuarial valuation of the Plan as at December 31, 2003 indicates the Plan is fully funded. Contributions to the Plan made during the year by the College on behalf of its employees amounted to \$5,967,633 (2006 - \$5,324,454) and are included in the statement of operations.

(b) Post employment benefits:

The College provides extended health care, dental insurance and life insurance benefits to certain of its employees under a multi-employer plan under CAAT. This coverage may be extended to the post-employment period. The most recent actuarial valuation of employee future benefits was completed as at March 31, 2007.

Effective September 1, 2005, the cost of the early retiree benefits are no longer subsidized by the Colleges. The elimination of benefits to early retirees after August 30, 2005 created a curtailment gain per the recent actuarial valuation for the College of \$342,000 (2006 - \$2,449,000). This curtailment gain, net of annual service costs, reduces the accrued benefit liability as at March 31, 2007.

Variances between actuarial funding estimates and actual experience may be material and any differences are generally to be funded by the participating members. The College recognizes as expense for current services the amount of its required contribution in a given year and the change in the accrued benefit liability in the year.

14. Employee benefits plans (continued):

(c) Post employment benefits (continued):

The significant actuarial assumptions adopted in estimating the College's accrued benefit liability are as follows:

Discount rate	4.85%
Dental benefits cost escalation	4.0%
Medical benefits cost escalation - hospital and other medical	5.0%
- drugs	9.0% in 2004, decreasing to 5.0% per annum in 2010 and thereafter.

(c) Net asset deficiency – vacation, sick leave and post employment benefits:

The composition of the vacation, sick leave and post-employment net asset deficiency is as follows:

	2007	2006	2005
Post-employment benefits	\$ 2,857,000	\$ 3,080,800	\$ 5,060,000
Vacation	8,138,703	7,498,389	7,379,788
Sick leave	3,802,377	3,834,297	4,223,057
	\$ 14,798,080	\$ 14,413,486	\$ 16,662,845

15. Financial instruments:

(a) Concentrations of credit risk:

The College is exposed to credit-related losses in the event of non-performance by counterparties to financial instruments. Credit exposure is minimized by dealing mostly with creditworthy counterparties such as government agencies and public companies. The College also enforces approved collection policies for student accounts.

The largest credit exposure to a single institution at March 31, 2007 was \$2,458,301 (2006 - \$2,723,104; 2005 - \$2,972,127) with the Algonquin Students' Association Inc. related to a guarantee of borrowings for the Student Fitness Centre.

There is a current receivable of \$1.4 million due from the Students' Association.

In addition, the College has committed, upon receiving appropriate notification, to apply fees collected on behalf of the Algonquin Students' Association to ensure that the bank loan to the Students' Association related to the construction of the Sportsfield remains current.

15. Financial instruments (continued):

(b) Fair values:

The carrying values of cash and short-term investments, accounts receivable, accounts payable and accrued liabilities, accrued salaries and employee deductions payable, approximate their fair value due to the relatively short periods to maturity of the instruments.

The fair value of the obligation under capital leases is measured as the present value of contractual future lease payments discounted at a rate for similar leases.

The fair value of investments is disclosed in note 5. The fair value of the long-term receivable is disclosed in note 22(b).

16. Commitments and guarantees:

(a) The College has committed to make the following future minimum payments under various vehicle and premises rental leases:

2008	\$	149,964
2009		64,925
		<hr/>
		\$ 214,889

(b) Letters of credit:

The College is contingently liable under letters of credit amounting to \$317,629 (2006 - \$230,973) which have been issued in the normal course of business.

(c) Guarantee:

In the normal course of business, the College has entered into lease agreements for premises and equipment. It is common in such commercial lease transactions for the College, as the lessee, to agree to indemnify the lessor liabilities that may arise from the use of the leased assets. The maximum amount potentially payable under the foregoing indemnities cannot be reasonably estimated. The College has liability insurance that relates to the indemnifications described above.

17. Contingencies:

The College is involved with pending litigation and claims which arise in the normal course of operations. In the opinion of the administration, any liability that may arise from such contingencies would not have a significant adverse effect on the financial statements of the College. Losses, if any, arising from these matters will be accounted for in the year in which they are resolved.

18. Building campaign:

In 2005, the Algonquin College Foundation launched a building campaign to raise \$2 million by 2010 to finance the construction of the new Automotive Technology Trades Centre. To date, \$196,909 has been contributed and externally restricted for this new building.

The building campaign has obtained \$350,000 in pledges, which have not been recorded in these financial statements.

19. Change in non-cash working capital:

	2007	2006	2005
Decrease (increase) in accounts receivable	\$ (2,515,841)	\$ 9,322,800	\$ (8,266,150)

	<u>\$ (7,949,127)</u>	<u>\$ 8,689,003</u>	<u>\$ (3,709,995)</u>

20. Related parties:

The College has an economic interest in the Algonquin College Foundation. The Foundation was incorporated without share capital on December 4, 1995 under the Ontario Corporations Act. The objectives of the Foundation are to solicit, receive, manage and distribute money and other property to support education at the College.

During the year, the College received \$1,756,455 (2006 - \$1,917,504; 2005 - \$1,547,585) from the Foundation in endowed contributions, deferred contributions and other restricted donations. The College provides the Foundation with office premises without charge and pays the salaries of all employees involved with the Foundation.

22. Sale of Rideau Campus:

Effective January 10, 2007, the College completed the sale of the Rideau Campus at a price of \$7.2 million. As consideration, the College received from the purchaser \$350,000 cash on January 10, 2007 and a promissory note with a face value of \$6.85 million due and payable on August 1, 2008. The promissory note does not bear interest.

The promissory note was recorded at January 10, 2007 at its fair value calculated as the present value of the future cash receipt discounted using an effective rate of interest of 5%. The fair value of the promissory note at January 10, 2007 was \$6,336,387, representing a discount from face value of \$513,613.

(a) Gain on sale of Rideau Campus:
