

## **Cyber Security Analysis 1530X01FWO and 1530X03FWO 2023-2024 Academic Cycle Eligibility Package**

Eligibility process for applicants who do not meet the published post-secondary admission requirements:

### **Option 1 (Academic Eligibility)**

Ontario College Diploma, Ontario College Advanced Diploma, or degree, or equivalent in the areas of Information Systems (IS), Information Technology (IT), Computer/ Telecommunication Engineering or equivalent.

All transcripts should be sent directly to [OntarioColleges.ca](https://OntarioColleges.ca), if you already submitted your transcript, no further action is required.

### **Option 2 (Work Experience and/or Academic Eligibility)**

A Graduate Certificate, Diploma, Advanced Diploma, or Degree from an accredited institution in a non-related field, with minimum three years of relevant practical field experience in an IT/IS Security position may be considered.

To be considered for admission under option 2, please submit:

- Current resume including any education and work experience demonstrating sufficient years and type of relevant practical field experience in an IT/IS Security position.
- Confirmation of employment letter (on company letterhead) from at least 1 (one) of your IT/IS Security employers included in your resume.
- Any related education transcripts (if applicable)
- Additional documents may be requested

### **Document Submission:**

Additional documents must be submitted to the Program Coordinator, Arsalan Parsaei, at [parsaea@algonquincollege.com](mailto:parsaea@algonquincollege.com).

For more information, refer to the [Cyber Security Analysis](#) Program website.
