Green Architecture
1501X01FWO
2023-2024 Academic Cycle
Eligibility Package

Required documentation:

- Academic transcripts from undergraduate studies in one of the following areas:
    - Post-secondary degree in Architecture or Building Science.
    - Advanced Diploma in Architectural Technology (3-year).
    - Diploma in Architectural Technician (2-year).
    - Other relevant areas of study.

- A recent resume (CV) of relevant employment or volunteer experience, and a portfolio of the applicant's Architectural or other relevant work (PDF format).

The resume and portfolio can include information, drawings, photos, projects, reports, etc. that help to demonstrate proficiency in the following four general areas:

1. Architectural building design fundamentals (site planning, floor planning, massing, and working with a building program).
2. Architectural drawing skills, both by hand and using Architectural computer software such as AutoCAD and Revit Architecture.
3. Fundamental knowledge of building science, materials, technology and systems (architectural, structural, mechanical, electrical).
4. Fundamental knowledge of building codes and regulations.

Applications will be considered on an individual basis.

Please submit documents by email (preferred): admissions@algonquincollege.com

For more information, please contact Eric Fruhauf, Program Coordinator, at 613- 727-4723 ext. 6246 or fruhaue@algonquincollege.com.
