Academic Projects

Regulatory Strategy for New Drug Submission (NDS)

Algonquin College, Ottawa, ON

May 2024 – Aug. 2024

- Developed a comprehensive regulatory strategy for submitting a New Drug Submission (NDS), ensuring compliance with all relevant guidelines and regulations
- Provided an overview of the drug (therapeutic use, mechanism of action, target population) and outlined preclinical studies and clinical trial phases (objective, design, endpoints)
- Proposed a draft labeling for the drug including indications, dosage, and safety information
- Developed a risk management plan to monitor and mitigate potential adverse effects, propose strategies to address any potential challenges
- Created a timeline for the NDS, meeting all key milestones and deadlines

Public Health Policy Analysis

Mar. 2024 – Apr. 2024

Algonquin College, Ottawa, ON

- Provided an overview of a public health policy in Canada, including its objectives, target population, and the key stakeholders involved in the policy's creation and implementation
- Researched and collected data from multiple sources for qualitative and quantitative analysis to understand the policy's impact on public health outcomes
- Identified unintended consequences or gaps in the policy and developed recommendations for improving the policy including strategies for better implementation and enforcement
- Prepared clear communication strategies for multiple communication channels to improve the dissemination of information critical to preventing and mitigating public risk
- Summarized key findings in a 5-page research paper, outlining potential regulation issues and appropriate mitigation measures to reduce risk and build public trust

Work Experience

Pharmacy Assistant

Feb. 2024 – Present

Shoppers Drug Mart, Ottawa, ON

- Greet 30+ customers promptly each shift to gather prescription information while adhering to confidentiality and privacy requirements
- Prepare and submit prescription orders, accurately filing completed documentation
- Coordinate incoming faxes and calls, referring to pharmacist when necessary
- Efficiently count, measure, package and label prescriptions as per pharmacy standards

Pharmacy Aide

Aug. 2022 – Nov. 2023

Apollo Pharmacy, Uttar Pradesh, India

- Assisted the pharmacist with dispensing drugs according to issued prescriptions ensuring proper item, dosage, and quantity for each patient
